Subject:	GBL - Pre Remediation Monitoring Plan S17L8-002
Date:	June 29, 2018 7:32:24 AM

Hi Bonnie & Sabrina

I've just submitted V2 of the Pre-Remediation Monitoring Plan (PRMP) to the ORS. We greatly appreciate the expedited review process the SLWB has conducted for the PRMP. For ease of review, here is a list of the changes within V2 of the PRMP, all of which are in keeping with our proponent responses to the comments.

- SRRB Comment 4: INAC did a preliminary review of the Northern Transportation Route Report mentioned by the reviewer. No water quality information was contained therein, and was consequently not added to the list of water quality monitoring reports.
- SRRB Comment 6: Clarification was added that "effects" was in respect to water quality at the Great Bear Lake Sites.
- SRRB Comment 7: In accordance with the reviewer's recommendation, "hypothesis" was changed to "assumption".
- SRRB Comment 13: QA/QC evaluation approaches and benchmarks were added to the report.

If you require anything further, please let me know,
