Re: Ministerial Approval Required for Issuance of Town of Inuvik Type A Water Licence

Minister McLeod,

The Gwich'in Land and Water Board (GLWB) has completed its regulatory process and has approved Type "A" Water Licence G17L3-001 for the Town of Inuvik's operation of its municipal water use and waste management systems. The Type "A" Water Licence requires your approval and signature, as per Section 72.13 of the Mackenzie Valley Resource Management Act (MVRMA), as delegated under Schedule A of the Delegation Instrument under the MVRMA. The GLWB recommends your approval and signature. The Water Licence and the GLWB's Reasons for Decision are attached.

The Town's current Water Licence expires on June 30, 2017. As noted on the Licence cover page and in the Reasons for Decision, the GLWB has approved a term of ten (10) years. If you approve the Licence, the GLWB will set the effective date when the Licence is issued and will set the expiry date based on a ten year term.

If you have any questions please contact Leonard DeBastien, Executive Director at (867) 777-4954 or by email at l.debastien@glwb.ca.

Sincerely,

Elizabeth Wright
Acting Chair, Gwich'in Land and Water Board
