**RE: Giant Mine Remediation Project MV2007L8-0031 & MV2019X0007 Closure and Reclamation Plan Annual Update Version 3.0 Submission**

Dear Ms. Cowan:

The Giant Mine Remediation Project (GMRP) is submitting its Closure and Reclamation Plan (CRP) Annual Update, as per Part D Condition 3 of the of the Type A Water Licence MV2007L8-0031, as well as Condition 84 of Type A Land Use Permit MV2019X0007.

The 2024 CRP Annual Update (version 3.0) is provided in the same format as the 2023 CRP Annual Update (version 2.0). The purpose being to provide a document that reflects the up-to-date Project plans in one document. The update only includes information that was subject to review and has been approved through Design Plans. The intent is that the annual update will evolve with the project, without adding additional reviewer burden. As such, the GMRP understands that the annual update will not be subject to the Board's approval process. This annual update has been structured as follows:

- brief project description section, including an updated project summary table;
- a summary of the sections of the CRP Version 2.1 that have approved supplemental information (i.e., approved Design Plans), including links to all relevant files available on the MVLWB registry; and
- updated closure objectives and criteria table (Appendix 5.0A from Version 2.1 of the CRP).

We continue to believe the annual update serves as a valuable resource to reviewers to locate the most up-to-date and approved project information. Should you have any questions or require any further information, please contact the undersigned by email at [Andrei.Torianski@rcaanc-cirnac.gc.ca](mailto:Andrei.Torianski@rcaanc-cirnac.gc.ca).

Sincerely,

Andrei Torianski  
A/Deputy Director  
Giant Mine Remediation Project

cc. Erika Nissen, Land Use Inspector, CIRNAC-Lands and Resource Management
