| <input checked="" type="checkbox"/> Other: Land Use Operations | |

Parsons, on behalf of Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC), for the Giant Mine Remediation Project (GMRP) is notifying the Board and the Land Use Inspector of the following:

1. The Water Treatment Plant Subcontractor has need to expand their laydown area which includes a site office trailer, washcar (washroom cart), a lunchroom/training trailer, multiple seacans for storage of tools and supplies, and construction materials. This expanded laydown is within 100 meters of Baker Creek.

Water Use

Water will be used for dust control as required, sourced from Yellowknife Bay, or, when available, the Polishing Pond.

Fuel/Chemical Use and Storage

Fuel/Chemicals will not be stored within 100 meters of Baker Creek.

Waste Recovery and Disposal

Not applicable.

Erosion and Sediment Control

Erosion and sediment controls will be placed in accordance with the Erosion and Sediment MMP.

Vegetation Removal/Restoration of Site

Not applicable

Schedule

The area is expected to be used until the end of the Project in 2026.

Site Plans and Drawings

An outline of the expanded laydown area is shown below:
