Subject: Late Submissions - Notification of Intent to claim compensation

Good Morning Shannon

It has come to my attention that at least two of the members of the Great Slave Sailing Club are away at the end of the Great Slave Lake on (different) projects. One will not return until early September and the other, Randy until near the end of this month.

They are Randy Freeman [REDACTED] and Karen Guignac [REDACTED] and they each operate boats from the GSSC property and mooring field.

We would appreciate it if you would accept their late notifications when they arrive. I believe that their notifications will contain similar grounds and mine and other members.

Thank you very much

Ian McCrea
