Indigenous Engagement Log - Modified Care & Maintenance Program
April 1 to August 31, 2022

Date	Discussion
Acho Dene Koe First Nation	
4-Apr-22	A copy of the Monitor's Twenty-Third Supplemental report was circulated to the service list, including the community working group advising parties that the Competitive Selection Process was terminated and that the Monitor, in conjunction with CIRNAC and the GNWT, would be considering and developing next steps, alternative course of remedial action with respect to the Cantung site, and arranging for consultation with affected Indigenous communities and regulatory stakeholders.
21-Apr-22	A notice was circulated to the communities by the Government of the Northwest Territories noting that the Competitive Selection Process had been terminated and invited communities to contact the Government directly if they wished to discuss the matter.
21-Apr-22	A notice was circulated to the communities by CIRNAC noting that the Competitive Selection Process had been terminated and advised of the planning for ongoing care and maintenance and the closure and remediation options for the Cantung site. The notice invited communities to contact CIRNAC directly to discuss the matters related to the notice and the Cantung mine.
2-May-22	Emailed communities seeking preference for dates for 15th CWG: June 9 or 10, 2022.
12-May-22	Circulated invitation to the 15th CWG being held on June 10, 2022
2-Jun-22	Circulated meeting materials for 15th CWG to all communities.
10-Jun-22	Representative(s) from NDDDB, LKFN, LFN, and ADKFN attended the virtual 15th CWG meeting. At the CWG, it was advised that planning had commenced to determine the future of the Nahanni Range Road management, as well as a modified approach to care and maintenance of the mine site following the outcome of the sales process and operations not being resumed. It was advised that the site was being viewed at through closure lens and 1:1 meetings can be arranged with the communities if requested. A site visit was scheduled for the following week for members of the project management team. The communities were invited to an open discussion and a roundtable was conducted with all parties at the meeting and encouraged to contact NATC directly if they had any further questions.
6-Jul-22	Circulated meeting minutes for the 15th CWG, which would be deemed final by July 20, 2022 in the absence of comments. Email to communities also requested their preference for dates for the 16th CWG: July 20 or 21, as well as notice that the FMEA technical workshop has been tentatively scheduled for the week of August 15
14-Jul-22	Circulated calendar invite to the 16th CWG being held on July 21, 2022
18-Jul-22	Circulated formal invite to the 16th CWG behind held on July 21, 2022
21-Jul-22	Representative(s) from NDDDB, LKFN and LFN attended the virtual 16th CWG. The purpose of the CWG was to review the goals of the proposed modified care & maintenance program to be submitted to the MVLWB including stopping maintenance of the Nahanni Range Road, installing a new modular camp, and moving towards reduced and intermittent site presence subject to the approval by the MVLWB. An outline of the proposed modifications under the current water license was presented, as well as the regulatory path forward and timeline for applying for a new water license. An update was also provided regarding the status of the FMEA and socio-cultural engagement within the FMEA would be undertaken separately with communities as requested. CIRNAC also noted that they would be available to coordinate bilateral sessions with communities, as requested. The communities were invited to an open discussion and a roundtable was conducted with all parties at the meeting; several questions were posed by the community representatives in attendance regarding the proposed modified care & maintenance program which was discussed at length. Communities were encouraged to contact NATC directly if they had any further questions.
26-Jul-22	Circulated the FMEA report and calendar invite for the technical workshop session to be held on August 17, 2022
27-Jul-22	Circulated formal invitation to the August 17th FMEA technical session along with the TetraTech attendance list, as requested at the 16th CWG meeting
9-Aug-22	Circulated meeting minutes for the 16th CWG, which would be deemed final by August 23, 2022 in the absence of comments.
10-Aug-22	Circulated meeting materials for the FMEA technical session.
16-Aug-22	Circulated to the communities the commentary and questions received from NDDDB re: FMEA report
17-Aug-22	FMEA technical workshop was held in person in Vancouver, BC and virtually. Representatives from LKFN, LFN, and NDDDB attended the session. Along with the technical presentation, it was noted that the modified care & maintenance plan application was to be submitted to the MVLWB shortly. The session invited communities to participate in an open discussion and several questions and matters were addressed/discussed at length, including the modified care & maintenance program. Communities were encouraged to contact NATC directly if they had any further questions.

Date	Discussion
18-Aug-22	Circulated to the communities a copy of the submission made to the MVLWB regarding proposed modifications, revisions, and plans under current water license. The communities were encouraged to contact NATC directly if there were any questions regarding the submission.
Naha Dehe Dene Band	
4-Apr-22	A copy of the Monitor's Twenty-Third Supplemental report was circulated to the service list, including the community working group advising parties that the Competitive Selection Process was terminated and that the Monitor, in conjunction with CIRNAC and the GNWT, would be considering and developing next steps, alternative course of remedial action with respect to the Cantung site, and arranging for consultation with affected Indigenous communities and regulatory stakeholders.
21-Apr-22	A notice was circulated to the communities by the Government of the Northwest Territories noting that the Competitive Selection Process had been terminated and invited communities to contact the Government directly if they wished to discuss the matter.
21-Apr-22	A notice was circulated to the communities by CIRNAC noting that the Competitive Selection Process had been terminated and advised of the planning for ongoing care and maintenance and the closure and remediation options for the Cantung site. The notice invited communities to contact CIRNAC directly to discuss the matters related to the notice and the Cantung mine.
2-May-22	Emailed communities seeking preference for dates for 15th CWG: June 9 or 10, 2022.
11-May-22	S. Hamm, consultant for the Monitor, attends in-person meeting with Chief and Council along with CIRNAC representatives. Next steps for the site including modified care and maintenance and closure planning were discussed.
12-May-22	Circulated invitation to the 15th CWG being held on June 10, 2022
2-Jun-22	Circulated meeting materials for 15th CWG to all communities.
5-Jun-22	A notice was circulated by the Government of the Northwest Territories reiterating that the Competitive Selection Process had been terminated followed by an update on the Mactung property.
10-Jun-22	Representative(s) from NDDDB, LKFN, LFN, and ADKFN attended the virtual 15th CWG meeting. At the CWG, it was advised that planning had commenced to determine the future of the Nahanni Range Road management, as well as a modified approach to care and maintenance of the mine site following the outcome of the sales process and operations not being resumed. It was advised that the site was being viewed at through closure lens and 1:1 meetings can be arranged with the communities if requested. A site visit was scheduled for the following week for members of the project management team. The communities were invited to an open discussion and a roundtable was conducted with all parties at the meeting and encouraged to contact NATC directly if they had any further questions.
6-Jul-22	Circulated meeting minutes for the 15th CWG, which would be deemed final by July 20, 2022 in the absence of comments. Email to communities also requested their preference for dates for the 16th CWG: July 20 or 21, as well as notice that the FMEA technical workshop has been tentatively scheduled for the week of August 15, 2022
14-Jul-22	Circulated calendar invite to the 16th CWG being held on July 21, 2022
18-Jul-22	Circulated formal invite to the 16th CWG behind held on July 21, 2022
21-Jul-22	Representative(s) from NDDDB, LKFN and LFN attended the virtual 16th CWG. The purpose of the CWG was to review the goals of the proposed modified care & maintenance program to be submitted to the MVLWB including stopping maintenance of the Nahanni Range Road, installing a new modular camp, and moving towards reduced and intermittent site presence subject to the approval by the MVLWB. An outline of the proposed modifications under the current water license was presented, as well as the regulatory path forward and timeline for applying for a new water license. An update was also provided regarding the status of the FMEA and socio-cultural engagement within the FMEA would be undertaken separately with communities as requested. The session invited communities to participate in an open discussion and several questions and matters were addressed/discussed at length, including the modified care & maintenance program. Communities were encouraged to contact NATC directly if they had any further questions.
18-Aug-22	Circulated to the communities a copy of the submission made to the MVLWB regarding proposed modifications, revisions, and plans under current water license. The communities were encouraged to contact NATC directly if there were any questions regarding the submission.
Liard First Nation	
4-Apr-22	A copy of the Monitor's Twenty-Third Supplemental report was circulated to the service list, including the community working group advising parties that the Competitive Selection Process was terminated and that the Monitor, in conjunction with CIRNAC and the GNWT, would be considering and developing next steps, alternative course of remedial action with respect to the Cantung site, and arranging for consultation with affected Indigenous communities and regulatory stakeholders.
21-Apr-22	A notice was circulated to the communities by the Government of the Northwest Territories noting that the Competitive Selection Process had been terminated and invited communities to contact the Government directly if they wished to discuss the matter.
21-Apr-22	A notice was circulated to the communities by CIRNAC noting that the Competitive Selection Process had been terminated and advised of the planning for ongoing care and maintenance and the closure and remediation options for the Cantung site. The notice invited communities to contact CIRNAC directly to discuss the matters related to the notice and the Cantung mine.
2-May-22	Emailed communities seeking preference for dates for 15th CWG: June 9 or 10, 2022.
6-May-22	Followed-up with communities regarding a preferred date for the 15th CWG
12-May-22	Circulated invitation to the 15th CWG being held on June 10, 2022
2-Jun-22	Circulated meeting materials for 15th CWG to all communities.
10-Jun-22	Representative(s) from NDDDB, LKFN, LFN, and ADKFN attended the virtual 15th CWG meeting. At the CWG, it was advised that planning had commenced to determine the future of the Nahanni Range Road management, as well as a modified approach to care and maintenance of the mine site following the outcome of the sales process and operations not being resumed. It was advised that the site was being viewed at through closure lens and 1:1 meetings can be arranged with the communities if requested. A site visit was scheduled for the following week for members of the project management team. The communities were invited to an open discussion and a roundtable was conducted with all parties at the meeting and encouraged to contact NATC directly if they had any further questions.
6-Jul-22	Circulated meeting minutes for the 15th CWG, which would be deemed final by July 20, 2022 in the absence of comments. Email to communities also requested their preference for dates for the 16th CWG: July 20 or 21, as well as notice that the FMEA technical workshop has been tentatively scheduled for the week of August 15, 2022
7-Jul-22	Sent A. MacDonald, consultant to LFN, the service list in response to an enquiry regarding CWG participants
14-Jul-22	Circulated calendar invite to the 16th CWG being held on July 21, 2022
18-Jul-22	Circulated formal invite to the 16th CWG behind held on July 21, 2022
21-Jul-22	Representative(s) from NDDDB, LKFN and LFN attended the virtual 16th CWG. The purpose of the CWG was to review the goals of the proposed modified care & maintenance program to be submitted to the MVLWB including stopping maintenance of the Nahanni Range Road, installing a new modular camp, and moving towards reduced and intermittent site presence subject to the approval by the MVLWB. An outline of the proposed modifications under the current water license was presented, as well as the regulatory path forward and timeline for applying for a new water license. An update was also provided regarding the status of the FMEA and socio-cultural engagement within the FMEA would be undertaken separately with communities as requested. CIRNAC also noted that they would be available to coordinate bilateral sessions with communities, as requested. The communities were invited to an open discussion and a roundtable was conducted with all parties at the meeting; several questions were posed by the community representatives in attendance regarding the proposed modified care & maintenance program which was discussed at length. Communities were encouraged to contact NATC directly if they had any further questions.
26-Jul-22	Circulated the FMEA report and calendar invite for the technical workshop session to be held on August 17, 2022
27-Jul-22	Circulated formal invitation to the August 17th FMEA technical session along with the TetraTech attendance list, as requested at the 16th CWG meeting
8-Aug-22	Follow-up with Tom Cove, Loretta Ford and A. MacDonald re: attendance at FMEA session
9-Aug-22	Circulated meeting minutes for the 16th CWG, which would be deemed final by August 23, 2022 in the absence of comments. Received comments from Tom Cove which will be incorporated into minutes.
10-Aug-22	Circulated meeting materials for the FMEA technical session.
16-Aug-22	Circulated to the communities the commentary and questions received from NDDDB re: FMEA report

Date	Discussion
17-Aug-22	FMEA technical workshop was held in person in Vancouver, BC and virtually. Representatives from LKFN, LFN, and NDDB attended the session. Along with the technical presentation, it was noted that the modified care & maintenance plan application was to be submitted to the MVLWB shortly. The session invited communities to participate in an open discussion and several questions and matters were addressed/discussed at length, including the modified care & maintenance program. Communities were encouraged to contact NATC directly if they had any further questions.
18-Aug-22	Circulated to the communities a copy of the submission made to the MVLWB regarding proposed modifications, revisions, and plans under current water license. The communities were encouraged to contact NATC directly if there were any questions regarding the submission.
