Hi Susan,

Thanks going out and having a look at the freeboard for the lagoons. They do look quite full, and not at the required 1 metre of space left. I just heard back from Judy at Taiga labs. They should be able to give me a preliminary report on sample results today. I'll make the call on Monday, then hopefully Clifford can start decant when he's back next Tuesday. I see rain is forecasted for this weekend, so if you or staff could check on it on Monday and send me some photos again, that would be much appreciated.

We want to avoid a spill, or uncontrolled release as much as possible, so if an emergency decant is required on Monday or before—regardless of results—please let me know.

I'll have my work cell with me this weekend too, so if you need to action something before Monday, just give me a call 867-446-3775.

Regards,

Wendy

Hi Wendy,

Here are a couple of pictures. Hopefully they are helpful to you.
