RE: Letter in Support of Storage Authorization

Dear MVLWB:

I, the Inspector, write to you in support of Fort Smith Construction NT Ltd.'s application for storage authorization for expiring Land Use Permit MV2016Q0036.

The permittee Fort Smith Construction NT Ltd. is currently in the process of applying for a new Land Use Permit for the operation located on Salt Mountain, north of Highway #5 and east of the Foxholes Road, and is seeking approval for the storage of quarrying equipment remaining on site. The permittee was authorized to use of the land under Quarry Permit # 2023QP0013 which has now closed. The permittee is in the process of applying for a new quarry permit.

In absence of an active quarry permit, and while applications for a new Land Use Permit and Quarry Permit are underway, I the Inspector support Fort Smith Construction NT Ltd.'s application for Storage Authorization at this site.

Sincerely,

Miles Barry  
Resource Management Officer II  
South Slave Region, Land and Water  
Department of Environment and  
Climate Change
