Seabridge Gold (NWT) Inc. - New Land Use Permit Water Licence Applications - MV2019C0025 MV2019L2-0011 MV2019L2-0012 (MVLWB)

By submitting comments and recommendations to the Online Review System, you and/or your organization become a Party to this Proceeding and, as such, are expected to follow the Boards' [Rules of Procedure](#).

Item Description

October 17, 2019

Good morning,

The Government of the Northwest Territories (GNWT) has requested an extension to the comment submission date. The requested comment submission date is October 24, 2019. Board staff are hereby granting the extension as requested by the GNWT as their comments and recommendations are integral to the process.

With the extension being granted to the GNWT, this means that the response date for Seabridge has also been extended. The new date for response submissions will be November 7, 2019.

Seabridge Gold (NWT) Inc. (Seabridge), has submitted three complete applications for the completion of a mineral exploration program in the Courageous Lake area. The proposed project is located on both federal and non-federal land. Seabridge is required to submit one land use permit application. Seabridge is required to submit two water licence applications, one for the federal area and one for non-federal area. The application documents attached to this review cover both the federal and non-federal areas.

Reviewers are invited to submit comments and recommendations using the Online Review System (ORS) by the review comment deadline specified below. Notices of application for water compensation must also be submitted by the review comment deadline. If reviewers seek clarification on the submission, they are encouraged to correspond directly with the Applicant prior to submitting comments and recommendations.

Please provide comments and recommendations on the documents linked below. Reviewers may also wish to consider providing an overarching recommendation regarding whether the Board should approve the submission, to provide context for the comments and recommendations and assist the Board with its decision.

The purpose of the draft Licences are to allow reviewers to comment on possible conditions. These draft materials are not intended to limit in any way the scope of reviewers' comments. The Board is not bound by the contents of the draft Licence and will make its decision at the close of the proceeding on the basis of all the evidence and arguments filed by all reviewers.

Please note that the draft Permit has been developed using the MVLWB's current Standard Land Use Permit Conditions Template. The purpose of this draft Permit is to allow reviewers to comment on possible conditions. These draft materials are not intended to limit in any way the scope of reviewers' comments. The Board is not bound by the contents of the draft Permit and will make its decision at the close of the proceeding on the basis of all the evidence and arguments filed by all reviewers.

Under the Preliminary Screening Requirement Regulations of the Mackenzie Valley Resource Management Act (MVRMA), the Board must conduct a preliminary screening for an application for a proposed development that requires a water licence, unless it is exempt from preliminary screening in accordance with the Exemption List Regulations. Reviewers are encouraged to provide comments and recommendations (e.g., on impacts and mitigation measures) to assist with the completion of the preliminary screening.

Please be advised that comments made by reviewers regarding impacts of this project to wildlife and wildlife habitat in this preliminary screening will inform the GNWT Minister of Environment and Natural Resources' determination regarding whether a Wildlife Management and Monitoring Plan will be required for this project as per Section 95 of the Wildlife Act.

All documents that have been uploaded to this review are also available on our public Registry. If you have any questions or comments about the ORS or this review, please contact Board staff identified below.
