[Proposed Locations for SNP 02-02b,c - April 10, 2023.pdf](#)

[OFFICIAL]

Hi Jacqueline, attached is approval from the inspector for the locations of the new sampling locations for SNP 02-02b and SNP 02-02c (active once water is stored in the Influent Storage Ponds). There are currently no coordinates listed in the Water License for stations SNP 02-02b and SNP 02-02c.

However, the locations of these stations will likely change again based on construction activity in the area (will impact access).

We will again request approval from the inspector prior to changing locations.

Let me know if you have any questions.

Thanks,

Lisa Tran

Hello Lisa,

Yes, by all means, proceed with the proposed locations, as I had no issues with the locations chosen.

Regards,

Tom Bradbury

[OFFICIAL]

Hi Tom,

I understand that you had no issues with the proposed locations for SNP 02-02b and 02-02c based on your inspection in April.

Do you mind confirming in writing, so that I can provide the locations to the MVLWB and indicate you have approved.

Thank you,

Lisa Tran

Hello Lisa,

I really don't have any issues with the proposed SNP, however, I plan on going to site next week and would prefer to see the areas and have some general discussion while observing the locations in person before making my response official.

Let me know if there is an issue, as I know freshet is close at hand.

Regards,

Tom

[OFFICIAL]

Hi Tom,

SNP stations 02-02b and 02-02c, which will monitor water in the Influent Storage Ponds (ISPs), will supersede SNP station 02-02 (North Pile drainage collection ditch North of WMP), this 2023 freshet season.

We would like to propose the attached locations, where water samples representative of the ISPs can also be safely collected by site staff and are seeking your approval, as per Annex A, Part A, Item 2 of the Snap Lake Water License (MV2019L2-0004):

2. The location of sampling sites is subject to approval of an Inspector.

However, please note that after completion of construction, accessibility may change. And we may again need to request for your approval should these locations need to change.

Please let me know if need anything further for your decision.

Thank you,

Lisa Tran
