Hi Erica;

Is it possible to receive another 2-week extension on the proponent response? Our lead engineer working on the response experienced a fire at his home that has interrupted his ability to finish the comment response in the scheduled time.

I appreciate your understanding.

Thank you;

Hi Katie, thanks for the email.

I am unexpectedly at home without my computer, but will process this extension

request before the deadline on Thursday.

We were planning on taking the GWMP and the ICRP to the Board together in the new year, so it should work fine.
