Parsons, on behalf of Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC), for the Giant Mine Remediation Project (GMRP) is notifying the Board and the Land Use Inspector of the following:

1. Request for approval of one (1) temporary stockpile area for approximately 17,000 cubic meters of blast rock, which meets the definition of “other construction use” in the Borrow Materials and Explosives MMP. This material was generated through the Water Treatment Plant (WTP) Construction Work Package (CWP) and is expected to be stored on the South Pond Tailings Containment area for at least two years.

Water Use

Water is used for dust control when required during transport of the material.

Fuel/Chemical Use and Storage

Not Applicable

Waste Recovery and Disposal

Not Applicable

Erosion and Sediment Control

The aggregate stockpile will be managed as per the requirements of the site-wide MMP's.

Vegetation Removal/Restoration of Site

Not Applicable

Schedule

The temporary storage area will be used for several years until a use for the aggregate has been determined.

Site Plans and Drawings

See below for an approximate location as to where the temporary storage of the aggregate is located within the South Pond. The area of interest is the yellow rectangle. The area will be added to the Borrow Materials and Explosives MMP Figure 3.1-2 in the next version.

Hello,

Thank you for the notification. The request for a temporary stockpile area located within South Pond is approved.

Cheers,
Erika
