---

Good Morning,

The work scope for this year is decommissioning work that is approved under our approvals from OROGO, which is facilitated by our Licence and Permit from the MVLWB. Paramount undertook abandonment operations last year facilitated by the Permit and Licence, the decommissioning work is of a similar circumstance.

Paramount Resources Ltd. ("Paramount") is not undertaking any reclamation or remediation, or closing any project components in the work we are undertaking this year. Further, Paramount has submitted a Closure and Reclamation Plan ("CRP") to the Mackenzie Valley Land and Water Board as required by the Licence, that Plan is currently in review. Paramount will not be closing any components or conducting remediation/reclamation until the CRP is approved.

Paramount looks forward to the discussions on Thursday. John Hawkins will be attending the meeting on behalf of Paramount. If you have any questions prior to Thursday please do not hesitate to contact John or myself.

Good Afternoon Everyone,

Thank you for the notification for commencement of activities.

Unfortunately, it has come to my attention that the Closure and Reclamation plan for Liard West has not been approved yet and is still in the online review system process. Until this plan is approved, no closure and reclamation work can take place.

It is my understanding that we have a meeting set up for Thursday( June 13) morning at 930am to discuss the concerns that the MVLWB and ECC have regarding this work.

Thanks,  
Dani
