Dear Andrew Williams:

Re: Information Request – Response Required – Type A Water Licence and Type A Land Use Permit Applications – Pine Point Mining Limited – Confirmation and Exploration Program – Pine Point, NT

An Information Request based on review comments¹ for Pine Point Mining Limited's (PPML's) Confirmation and Exploration Program Type A Permit and Licence Applications Draft Licence and Permit Conditions has now been complied (Table 1), and is also available on our website. Please go to www.mvlwb.com under "Public Registry", Pine Point Mining Limited.

Your response should be submitted to the Mackenzie Valley Land and Water Board (MVLWB/the Board) by **September 20, 2021**. If Pine Point Mining Limited cannot meet the due date, please contact Board staff for an extension request. Please note that an extension request may result in a change to the work plan schedule.

If you have any questions or concerns regarding this request, please contact Kim Murray at kmurray@mvlwb.com.

Yours sincerely,

A handwritten signature in black ink that reads "Kim Murray".

Kimberley Murray
Regulatory Specialist

¹ See MVLWB Online Registry for PPML – Review Comment Table – Draft Licence and Permit Conditions – Aug 18_21 ([hyperlink](#)); GNWT-ENR, comment 3; Fort Resolution Métis Government, comment 6.

Attached: Information Request

INFORMATION REQUEST

Pine Point Mining Limited (PPML) – Type A Water Licence and Type A Land Use Permit Applications
MV2020L8-0012 & MV2020C0017

Table 1: Information Request

#	Subject	Information Request
1	Temporary Watercourse Crossings – Ice Bridges	<p>Two comments on the public review of the Draft Permit and Licence Conditions for PPML’s Confirmation and Exploration Program were about Watercourse crossings (GNWT-ENR, comment 3 and Fort Resolution Métis Government, comment 6). In response to the comments, PPML indicated that “temporary water crossings may be required and would include the use of temporary clear span bridges or ice bridges/snow fills, as appropriate”.</p> <p>PPML to provide Water Use details for the temporary ice bridges, including: Water source name and type; Water source location and coordinates; and maximum volume and rate of water use (cubic meters per day or year).</p> <p>If Tables 1-4, 6 of the Water Withdrawal Plan² submitted by PPML on March 22, 2021 include the Water source names and types and/or Water source locations and coordinates proposed for this Water Use, please specify which tables are applicable.</p>
