Sean,

Yellow can be removed, green should be changed to abandonment.

a) Construction and maintenance of all access and winter access roads, well sites, camps, barge landing sites, borrow pits, remote sumps, gathering lines, central battery, the Shiha Pipeline, and related facilities.

b) Other related activities such as reclamation and/or well re-completion or suspension and reactivation of existing well sites.

Afternoon Terence,

As a follow-up to our telephone conversation, could you please provide, at your earliest convenience, further clarifications on the scope of activities from permit 2016A0010 and Licence 2016L1-0002 that should be carried over to the potential replacement Permits (MV2021A0006) and Licence (MV2021L1-0006), respectively.

Additionally, could you please confirm when the Closure and Reclamation Plan for the Project will be forthcoming.

Regards,

Sean Joseph, Regulatory Specialist
