

Tlicho Government:

Date	Type of Contact	Nature of Contact	Message/Response
Aug. 26, 2022	Email to: Henry Zoe, M Brajer Tlicho Gov't	To discuss initial pre-engagement	Message outlining EREX's project description and plans with a request to engage
Aug. 26, 2022	Email From: B. Wheler, cc'd: Violet Blondin- Camsell, Jessica Pacunayen, Longinus Ekwe		Response: Acknowledged receipt of message. Indicated that the message would be forwarded to appropriate persons for consideration. Also stated that monthly meetings were held where proponents could provide presentations of their projects.
Aug. 26, 2022	Email to: Grace Mackenzie Tlicho Gov't & Ginger Gibson	To discuss initial pre-engagement	Response from Brett Wheler: Tłıchq Government (TG) regulatory division (staff cc'd here) will review the information you have provided and we look forward to you engaging with us again soon.
Sept. 20, 2022	Email-1 from L. Ekwe	Invitation to present further information	Acknowledgement of information received; provision of further contacts, and invitation to meeting and present at one of the monthly meetings
Sept. 20, 2022	Email to L. Ekwe	Response	Thanks for invitation to present. Additional information on EREX project.
Sept. 20, 2022	Email-2 from L. Ekwe	further information	Acknowledged receipt of further information and reminder that meetings are possible.
Sept. 21, 2022	Email to L.Ekwe	Draft project description	Thanks again for contact. Draft project description provided and suggestion to meet at their convenience.
Sept 22, 2022	Email frm L. Ekwe	Meetings and contacts	Suggestion for meeting on October 17 th and further information about meeting presentations

Sept 22, 2022	Email response to L. Ekwe	Meeting date & acceptance	Accept meeting date and look forward to meeting
Sept 26, 2022	Email from L. Ekwe	Meeting date, info and participants	Additional meeting info and possibility to have additional EREX team members attend
Sept 26, 2022	Email response to L. Ekwe	Meeting data, info and participants	Mention that I may be the only one representing EREX at the meeting.
Sept 26, 2022	Email to Ms Camsell-Blondin with attached Project Description	Mineral exploration engagement	Introduction and attachment of EREX's project description
Sept 28, 2022	Call to Brett Wheler (867-447-4590)	Discuss EREX's project	Brett acknowledge receipt of my emails outlined in general terms Tliche lands and jurisdictional issues, as well as concerns for the land where EREX would be working, which included maintaining an environment that would sustain wildlife, Tliche peoples use of the land for hunting, and other traditional activities. As the project develops, he would be interested in opportunities for Tliche people and Tliche Gov't to benefit from the project.
Sept 28, 2022	Email to L. Ekwe	To confirm participants in Oct 17 th zoom call	Dustin Perry will be joining me on the zoom call that you are scheduling for October 17 th with your team.
Oct 3, 2022	Email to Violet C-B, Brett W., cc L. Ekwe	Draft LUP, WL apps, and Management Plans	Link to draft LUP and WL applications and Engagement Plan and request for comments prior to submission of the LUP and WL applications to the MVLWB.
Oct 5, 2022	Email from Violet C-B	Comment on Engagement Plan and employment opportunities	Tliche Government regulatory division has reviewed the engagement plan and, in our view, it is acceptable as a starting point for engagement. We will not be signing the plan, but EREX may provide this email as confirmation to the Board.
Oct 5, 2022	Email to Violet C-B	Response to above	<i>Thank you and the TG regulatory team for taking the time to review EREX's engagement plan that's much appreciated. As we move forward EREX will provide information of employment opportunities.</i>

Oct 5, 2022	Email from B. Wheler	Employment opportunities TG Contacts	Provided contact for Mark Brajer at Tłıchq Investment Corporation and TG Department of Client Services.
Oct 5, 2022	Email to B. Wheler	Response to above	<i>Thank you, Brett, for these contacts. I will follow-up with Mark and get in touch TG Client Services</i>
Oct 11, 2022	Email frm L. Ekwe	Request for copy of PowerPoint presentation	Yes, will email a copy to Mr. Ekwe.
Oct 13, 2022	Email to L. Ekwe	Emailed link to PowerPoint presentation	
Oct 14, 2022	Email from L. Ekwe	Reminder for zoom meeting Oct. 17	
Oct 17, 2022	Zoom meeting To present EREX's project	Attendees: L. Ekwe, Viollet Camsell-Blondin, P. Ewaschuk, Jessica Pacunayen, Dustin Perry, C. Verley	Introductions followed by a prayer, then C. Verley walked the attendees through EREX's project ~35 minutes, after which the floor was opened to questions. Ms Camsell-Blondin asked where there would be employment opportunities. Mr. Verley indicated that there would be and he had contact Mr. Wheler for information. Ms. Camsell-Blondin noted that with climate change the Proponent should be on the lookout for new species of wildlife coming into the area, such as moose, muscrats, and beaver. Ms Pacunyen indicated that EREX needs to be aware of archaeological sites and plan ways to avoid those areas. Mr. Verley indicated that EREX has engaged Bison Historical Services to undertake an archaeological overview assessment of the areas that EREX plans to work in and report its findings and recommendations to the PWNHC.
Oct 17, 2022	Email to M. Brajer		Re Tlıcho companies/contractors
Oct 17, 2022	Email frm M. Brajer		Set time for phone call to discuss Tlıcho companies/contractors on Oct. 21.
Oct 18, 2022	Email frm L. Ekwe	To provide pdf versions of the draft LUP and WL package	Those will be made available to Mr Ekwe.
Oct 21, 2022	Phone call w. M. Brajer	To learn about Tlıcho investment corp	Discussed Tlıcho Investment Corp which has 12 companies that do provide a variety of services to mineral exploration and development companies. Mark suggested that a list of EREX's requirements in terms of tasks and personnel be sent to him and he would forward to appropriate persons for review and fulfillment.

<p>Oct 26, 2022</p>	<p>Email from Longinus Ekwe</p>	<p>Feedback on Management Plans</p>	<p><i>Hi Carl,</i></p> <p><i>K'omqòdđò hoįzį (Good morning). As mentioned in our previous email, we will have the opportunity to review most of the management plans during the Board's public review, but here are some quick observations after reviewing the waste management plan:</i></p> <ol style="list-style-type: none"> <i>1. That EREX should highlight on efforts that will be in place on-site to ensure that wildlife will not be attracted to food waste before they're been incinerated.</i> <i>2. Ensure that ashes from the incinerator are well contained both on-site and during transportation to disposal facility using applicable guidelines or regulations</i> <i>3. EREX should follow their burn permit (if applicable) to ensure that no treated wood is burnt on-site</i> <p><i>I hope that helps, please let me know if you have any questions.</i></p> <p><i>Masi.</i></p>
<p>Oct 26, 2022</p>	<p>Email to Longinus Ekwe, from CV</p>	<p>Thank you for input on Management Plans</p>	<p><i>Good day, Longinus,</i></p> <p><i>Thank you for bringing these points to my attention. It's very helpful and much appreciated to get some critical comments on EREX's management plans before they are submitted, as this allows us the opportunity implement appropriate changes – so, yes, that does help.</i></p> <p><i>I am copying Denise Lockett on this message as EREX is retaining Denise collaborate with us on the permitting/licencing applications as well as engagement with affected parties particularly as this project moves forward.</i></p> <p><i>I will be in Yellowknife during the Geoscience Form in mid-November so there will be an opportunity to meet those who are in town during that event.</i></p> <p><i>Masi cho,</i></p> <p><i>Carl</i></p>

Nov 1, 2022	Phone call to Stephanie Poole from DL	Follow up on Aug 26, 2022 email from CV	No answer and no ability to leave a message

Yellowknives Dene First Nation (YKDFN):

Date	Type of Contact	Nature of Contact	Message/Response
Aug. 26, 2022	Email to YK Dene: Ed Sangris, Ernest Bestina, Johanne Black, paul@detoncho.com	To discuss initial pre-engagement	Message outlining EREX's project description and plans with a request to engage
Sept 26, 2022	Email to Kieron Testart with Project	To discuss initial pre-engagement	Message outlining EREX's project description and plans with a request to engage

	Description attached		
Sept 29, 2022	Called Kieron Testart 867-873-4307	To find out if he had received my email with the Project Description	He acknowledged receipt of the Project Description. I indicated that I would be sending him a link to the full LUP and WL application package. He said he would appreciate that and would circulate it amongst the Land & Environment team for their comments. He also indicated that he appreciated EREX providing the LUP and WL before it goes to the LWB.
Oct 3, 2022	Email to Kieron Testart	Draft LUP, WL apps, and Management Plans	Link to LUP and WL draft applications https://www.dropbox.com/sh/7kffklmccotjrzk/AAAdB2MFd0SE00DoldvCpxMza?dl=0 with request for comments
Oct 4, 2022	Reply from K. Testart	Re: Draft LUP, WL apps, and Management Plans	Thanks Carl, I will pass this along to our team for review and get any comments back to you. Mahsi cho, Kieron Testart
Oct 11, 2022			
Oct 18, 2022	Phone call to K. Testart		Follow-up to find out if their team had any comments on the LUP-WL package. Response was: not yet. Also asked Kieron about companies/contractors available to support exploration companies. He said he would put me in contact with John Henderson CEO of Det'on Cho Management LP.
Oct 18, 2022	Email from J. Henderson		To set phone call to discuss service opportunities. Agreed to call on Wednesday, Oct. 19.
Oct 19, 2022	Phone call to J. Henderson		Discussed Detoncho's companies and services that they provide to mining companies. Mr. Henderson recommended I talk to Stu Impett at Det'on Cho Logistics as he may have further insights in areas that they could be of assistance to EREX. Mr. Henderson sent a message connect me to Mr. Impett.
Oct. 19, 2022	Email to S. Impett	Contact & introduction	Introduction to EREX's project and needs for winter road support. Will follow-up with phone call.
Oct 24, 2022	Email to Adrian Boyd from DL	Introduction and discuss pre-submission engagement	<i>Hello Adrian: I hope you are well and enjoying fall (actually I saw you guys had snow this morning!) I am working with EREX International Ltd. on their Yellowknife Lithium Project (see attached letter of authorization) and hope to engage with the YKDFN on the project. Please see attached information that was previously sent to Kieron Testart.</i>

			<i>Thanks again for any help you can provide and I look forward to working with you.</i>
Oct 24, 2022	Email from Adrian Boyd to DL	Introduction and discuss pre-submission engagement	<i>Fantastic, thanks Denise. Kind regards,</i>
Oct 25, 2022	Email from DL to Adrian Boyd	Follow up to earlier email	<i>Hi Adrian: can we have a call tomorrow to talk about what the company is proposing and how to move forward? I appreciate your time and advice. Kind regards</i>
Oct 25, 2022	Email from Adrian Boyd to DL	Follow up and appropriate contact clarification	<i>Hi Denise, I'd love to chat however, I have no time this week. Regardless, its not me you want to talk to. Note: the Lands Department is only interested in where the land use is being proposed. All regulatory matters are dealt with through Ryan Miller ryanm@ykdene.com and Johanne Black jblack@ykdene.com .</i>
Oct 25, 2022	Email DL to Adrian Boyd,	Follow up	<i>Great. Thanks Adrian. I will reach out to them. Denise</i>
Oct 25, 2022	Email from DL to Ryan Miller and Johanne Black	Follow up Aug 26, 2022 email and request engagement advice	<i>Good afternoon: I am working with EREX International Limited on stakeholder relations and licensing and permitting of their Yellowknife Lithium Project. As part of the pre-submission engagement for their proposed exploration project, Carl Verley, Vice President of EREX International sent an email on August 26, 2022 outlining the draft project description and asking to engage.. I have attached the draft project description and would welcome an opportunity to speak with you on how best to proceed.</i>

			<p>The company plans to apply to the MVLWB for a land use permit and a water license for the proposed activities. Please do not hesitate to contact me if you have any questions. Denise A Lockett, for EREX International Ltd.</p>
Oct 27, 2022	Email from DL to Ryan Miller and Johanne Black, cc Adrian Boyd	Follow up request to engage	<p>Hello Johanne and Ryan:</p> <p>I expect you both are very busy, but would appreciate an opportunity to speak with you about engaging with the Yellowknives Dene on EREX International's Yellowknife Lithium Project. I am available anytime to speak with you. Kind regards Denise A Lockett, for EREX International Ltd. Yellowknife Lithium Project. lokettda@telus.net 604-340-475</p>
Oct 27, 2022	Email from J. Black	Follow up request to engage	<p>Hello Denise,</p> <p>Ryan Miller will be reaching out to you early next week. Capacity is an issue within the regulatory office (we have only 1 person in that dept) and they are working on a deadline submission this week. My apologies. Kind regards & Mahsi Cho,</p>
Oct 27, 2022	Email from J. Black	Follow up request to engage	<p>Hello Denise,</p> <p>I have just noticed that you are not using the correct email for Ryan Miller. I have included his correct email above and deleted the old one. You may want to do the same. His correct email address is: ryanm@ykdene.com If you have been waiting for a response from YKDFN it is probably because of the wrong email address for YKDFN's regulatory staff. Kind regards & Mahsi Cho,</p>
Oct 27, 2022	Email to J. Black	Follow up request to engage	<p>Thank you for the update. Much appreciated. Denise</p>
Nov 3, 2022	Email to Johanne Black and Ryan	Follow up request to engage	<p>Good morning Johanne and Ryan:</p> <p>I am reaching out to learn if there is an opportunity to engage prior to the Company submitting their applications to the MVLWB? I understand there are capacity</p>

	Miller, from DL		<i>challenges and everyone is so busy these days. Please let me know as the Company plans to submit their applications very soon.</i>

Aug. 26, 2022	Email to North Slave Metis Alliance: Bill Enge & Mark Whitford	To discuss initial pre-engagement	Message outlining EREX's project description and plans with a request to engage
Sept 26, 2022	Email to J. Hurtubise, cc'd Noah Johnson with Project Description attached	To discuss initial pre-engagement	Message to start pre-engagement with the NSMA and solicit their comments or concerns regarding EREX's proposed project.
Oct 3, 2022	Email to Noah Johnson, cc J. Hurtubise	Draft LUP, WL apps, and Management Plans	Link to LUP and WL draft applications. https://www.dropbox.com/sh/7kffklmccotjrzk/AAAdB2MFd0SE00DoldvCpxMza?dl=0 with request for comments.

Oct 19, 2022	Phone call with N. Johnson	Introduction	Call to find out if Mr. Johnson had received EREX's proposed project description and if he had any questions. Gave him a brief outline of the project. Our call dropped. Called him back later and talked further about the project. He mentioned concerns regarding poaching and vandalism when winter roads were opened up.
Oct 19, 2022	Email to Mr. Johnson	Follow-up	Mentioned to Mr. Johnson that EREX has a PowerPoint presentation of its project and that I would be happy to walk him through it. Also attached the project description in a separate message to Mr. Johnson.
Oct 19, 2022	Email to N. Johnson	Follow up	<p><i>Hi Noah,</i></p> <p><i>Good to have talked to you today.</i></p> <p><i>Thanks for the insight into security risks to wildlife and vandalism when access roads are opened up.</i></p> <p><i>Attached is a project description that will inform you of what EREX is proposing and where.</i></p> <p><i>I would like to submit the LUP and WL applications to the ORS as soon as possible, but if you have any comments or concerns on what EREX is proposing please let me know.</i></p> <p><i>Best,</i></p> <p><i>Carl</i></p>
Oct 27, 2022	Email from N. Johnson	Follow up	<p><i>Hi Carl,</i></p> <p><i>Thanks again for reaching out. Yes, the Ingraham trail and adjacent areas are a pretty big recreation corridor. I do know some people also fish in those lakes – I've seen people carrying rods out of big hill. As long as you have staff on site, or cameras when there are no staff things should be fine.</i></p> <p><i>With regards to the ice road – will the public be able to travel on it?</i></p> <p><i>Noah Johnson</i></p>
Oct 27, 2022	Email to N. Johnson	Follow up	<p>Noah,</p> <p>Thanks very much for getting back to me.</p> <p>I am also hearing from a number of people that the Ingraham trail and surrounding area is, as you say, an important recreational corridor, and Bighill is popular for ice fishing.</p> <p>Hopefully EREX's activity off Bighill Lake will not interfere with recreational activities.</p>

			<p>The ice road that we put in across Pontoon Lake and the southeastern part of Bighill lake will be open to the public, but there will be cautionary signage indicating that usage is at one's own risk. Your point about security is well taken. We will look into security cameras. The drill will be operating 24/7 so there will be people onsite, as well as, commuting back and forth from Yellowknife.</p> <p>However, EREX will use its best efforts to maintain the road in a safe condition, as its own crew will be using it on a daily basis. The timing for the road to be put in will be dependent on permitting, but we are hoping for sometime in late February and lasting into late March or early April if conditions permit. Beyond that there will likely be helicopter supported drilling during the summer.</p> <p>Please let me know if you have further questions or concerns.</p> <p>Best, Carl</p>
Oct 27, 2022	Email from N. Johnson	Follow up	<p><i>Thanks Carl, We appreciate you following up with us. If staff are using the site regularly as it sounds, I have less concerns with illegal activity. Hopefully there will be no illegal dumping (very common in the area). Signage stating that remote cameras are in use may help as a deterrent but some people can be pretty bold.</i></p> <p><i>On another note, the NSMA environment team has a winter road guardianship program for collecting wildlife observations or observations of illegal activity like dumping/poaching. The program is currently focused around the TCWR to the Diamond mines but I'm sure we would be open to talking if there was an opportunity to visit your ice road this winter, or to do a winter site visit independent of the guardian program.</i></p> <p><i>Sincerely, Noah</i></p>
Oct 27, 2022	Email to N.Johnson from CV	Follow up	<p><i>Thanks for the tip on signage, Noah. I will be in Yellowknife, along with some other members of the EREX Team, for the Geoscience Form in mid-November. That would be a good opportunity to meet and talk further about site visits and having the guardian program involved with our various access roads.</i></p>
Oct 27, 2022	Email from N. Johnson	Follow up	<p><i>Sounds great - I hope to see you there. Cheers,</i></p>

Date	Type of Contact	Nature of Contact	Message/Response
GNWT - PWNHC			
Sept 26, 2022	Email to N Smethurst Prince of Wales Northern Heritage Centre	Information request	Hi Naomi, EREX International is planning a drilling program on mineral leases that it holds east of Yellowknife. I am wondering if there are any archaeological resources that EREX should be aware of and therefore should avoid during its proposed drilling work? Below are maps of the leases and areas of proposed drilling activity. If you need shape files for these, please let me know. Regards, Carl Verley 604-616-8299
Sept 26, 2022	Email from N Smethurst	Response to Info request	Hi Carl, Is there a corresponding land use purpose for the proposed drill program, or is the program still in the pre-application stage? In addition to avoidance of archaeological sites, EREX International may need to have an Archaeological Overview Assessment (AOA) conducted, and subsequently avoid the areas of identified high archaeological potential or conduct an Archaeological Impact Assessment (AIA). I've attached our 'Guidelines for Developers' document which contains further information. We've already conducted a search of and released archaeological site data re. eight of the leases to Bison Historical, who've said they are conducting an AOA for EREX. Please send shapefiles of the following lease areas (which were not included in Bison Historical's request): NT-3200 NT-3198 NT-3199

			<p>NT-3194 NT-3195</p> <p>Please also fill out, sign, and return the attached Access Request document. Thank-you, Naomi</p>
Sept 26, 2022	Email to N Smethurst	Re: Information request	<p>Hi Naomi, <i>Thanks for getting back to me.</i> <i>Yes, I have arranged with Bison Historical to undertake an AOA for EREX.</i> <i>EREX is in the pre-application stage of putting together Land Use Permit and Water licence applications.</i> <i>I don't think at this stage it is appropriate for EREX to have access to PWNHC archaeological database, rather we will wait for Bison Historical's AOA, which should be completed by mid-October.</i> <i>Attached is a zip file (EREX_SE_Leases) with shapefiles for the leases that you requested.</i> Best Regards, Carl</p>

Nov 2, 2022	Email to, from DL	Follow up introduction and request to engage	<p><i>Good morning, Rick:</i></p> <p><i>I hope this email finds you well. I am following up on an email sent to you recently about EREX International Ltd.'s Yellowknife Lithium Project. As the Company is planning to file the permit and license applications with the MVLWB very soon, it would be good to know if your department has any concerns at this time, or if you would rather wait until the applications are on the ORS.</i></p> <p><i>I look forward to hearing from you.</i></p> <p><i>Denise A Lockett, for EREX International Ltd.</i></p>
Nov 2, 2022	Email from Rick Walburne, to DL	Follow up introduction and request to engage	<p><i>Hello Denise,</i></p> <p><i>Nice to hear from you. I have reviewed the package briefly but don't have any concerns off hand. If you were interested in a meeting or anything to present the project and take questions, I'm sure we could find some time though. Otherwise, we are ok with waiting until the ORS. As you are probably aware, the main items of interest on our end would be:</i></p> <ul style="list-style-type: none"> • <i>Water Use and sources</i> <ul style="list-style-type: none"> ○ <i>It looks like you have identified sources and are referring to the new estimation method so that looks good. I have not reviewed in detail though.</i> • <i>Camp waste management</i> <ul style="list-style-type: none"> ○ <i>Assume this will be included in waste management plan but we would be interested in that, especially any potential blackwater and greywater discharge</i> • <i>Security considerations</i> <ul style="list-style-type: none"> ○ <i>We can make ourselves available to review security estimate prior to submission or during the ORS period. I believe you are familiar with RECLAIM and our review process but please let us know if you request any assistance or would like to discuss. We are amenable to a stage/phased security as well where it makes sense.</i> • <i>Recreational use</i> <ul style="list-style-type: none"> ○ <i>You are likely aware of this as well but Hidden Lake, Pontoon and Bighill Lake are all fairly high-use recreational areas. That won't really impact our comments as such but just a note for your consideration. I think the actual locations of the drilling are not key areas but the winter road access will likely traverse snowmobile trails and recreational routes</i>

			<p><i>that will need to be considered during engagement and in regards to necessary mitigations/accommodations.</i></p> <p><i>Those are just some items off the top of my head but we will likely have additional comments once we see the entire package. As mentioned, we'd be happy to meet if you would like to present the project and/or discuss any of the items above.</i></p> <p><i>Rick</i></p> <p><i>Rick Walbourne A/Director Water Management and Monitoring Division Department of Environment and Natural Resources</i></p>

	CIRNAC		
Sept 29, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email to, from CV re: Hi Rasel, Thanks for getting back to me. I'm with EREX International Ltd ("EREX") EREX has a number of mineral leases in the Hidden Lake area. We would like to start a diamond drilling program on these in early 2023. I'm in the process of putting together Land Use Permit and Water Licence applications for the work. It was brought to my attention that the Hidden Lake mine site might be a suitable place to set up our exploration camp and fuel cache. Of course, being on Federal Land I would need approval for that. Would it be possible for EREX to set up their exploration/drill camp and fuel cache on the Hidden Lake mine site? And if so, how do I go about getting approval for this, as I will likely need that approval when I submit my Land Use Permit application? Below are maps of the area of EREX's mineral leases and one showing a tentative location of EREX's proposed camp and fuel cache on Federal Land. Best, Carl</p>
Sept 30, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email to, from CV: Hi Rasel, Further to my message from yesterday below is a Google earth image showing possible areas within the Hidden Lake</p>

			<p>minesite that may be suitable for EREX to set up a campsite. We would prefer Site_2 if that is acceptable with CARD. Please let me know how best to proceed with this request as EREX is trying to complete its Land Use Permit application to the MVLWB. Best, Carl</p>
Oct 3, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email from, to CV re: Hi Carl,</p> <p>Great to hear from you. I am organizing a meeting with you to understand more about your proposal. I've also copied my LTM lead, Joel Gowman to identify his staff to attend this meeting with me. We are extremely busy visiting communities within the next couple of weeks. Can you send me few dates in the week of Oct 17th</p> <p>so that Joel and I can plan for the meeting?</p> <p>Look forward to our meeting.</p> <p>Best regards,</p>
Oct 3, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email to, from CV re: Hi Rasel, Thank you for getting back to me.</p> <p>I am very flexible time-wise for a meeting with you at your earliest convenience. Please let me know what time and day works best for you and your team. This is time sensitive for EREX as we are in the process of submitting Land Use Permit and Water Licence applications to the MVLWB for a drill program on EREX's leases this coming winter. For your further information I've attached a Project Description that shows EREX's proposed camp located within the</p>

			<p>Hidden Lake mine reclamation area - of course if that is not possible EREX will move the proposed camp to another location.</p> <p>Best, Carl</p>
Oct 4, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email from, to CV: Hi Carl,</p> <p>Thank you for providing additional information. This is very helpful. We need to draft an access agreement between EREX International and us to allow you to reentry to the site. I'll work on the draft based on the advice received from Joel and his team, and get back to you for your review comments. I'll try to send you the draft by early next week. Let me know if you have any questions.</p> <p>Best regards, Rasel</p>
Oct 4, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email to, from CV: Rasel, Thank you for the extra effort on this task. EREX International Ltd's address is: 300 - 1055 West Hasting Street, Vancouver, B.C. V6E 2E9 EREX is also registered as an extra territorial corp. in the NWT. Best, Carl</p>
Oct 10, 2022	Rasel Hossain, Director Contaminants and Remediation	Introduction and request to engage	<p>Email from to CV re: Hi Carl:</p> <p>Happy Thanksgiving.</p> <p>The Hidden Lake Post remediation site condition report states the following (added underline): As of the date of this report, there are currently no restrictions to site use related to environmental site conditions following</p>

			<p>completion of the remediation project at the former Hidden Lake Mine. To ensure a long lifespan for the concrete cap, it is not recommended for extensive high-vibration heavy equipment to be used on top of the sealed mine opening.</p> <p>"HIDDEN LAKE - CLOSURE REPORT - RECORD OF POST REMEDIATION SITE CONDITIONS" report has already been shared with the regulators and the GNWT and as long as EREX meets these restrictions and mitigate risks, should be okay to access our site with certain conditions to meet from our access agreement (attached is version 1 of the draft) .</p> <p>We suggest a buffer around the sealed mine opening like we did with Golden Pursuit. Our access agreement with them includes a 50 m buffer/set back from all remedial sealed mine openings. We are also suggesting a wide enough allowance for a winter road to go past in order to access Thompson Lundmark.</p> <p>Attached is the draft sample access agreement for you to fill in with the details, and necessary information. Please use track changes. We will organize a meeting later this week or early next week. The draft will go through legal review once we have the final draft.</p> <p>Carl- please feel free to reach out to me if you have any questions.</p> <p>Best regards,</p>
<p>Oct 10, 2022</p>	<p>Rasel Hossain, Director Contaminants and Remediation</p>	<p>Access Agreement</p>	<p>Hi Rasel, Thank you for taking the time to get back to me today. And, yes, Happy Thanksgiving to you! The access agreement looks fairly straight forward. But we will review, fill-in the blanks, and get back to you with any questions or concerns in the next couple of days. One question that has arisen: is there a map that shows the location of the concrete caps covering the two shafts on the property or are there coordinates for these features on files somewhere?</p>

			Will be in touch.
Oct 10, 2022	Rasel Hossain, Director Contaminants and Remediation	Access agreement	Email to, from CV re: Thanks, Rasel, that annotated airphoto helps. Best, Carl
Oct 11, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	Email to, from CV re: Hi Rasel, We should have our comments on the access agreement to you tomorrow. But there is one question: Paragraph 8.7: Work Product - I am not sure what the intent of this clause is or if it is applicable to the Company in the situation envisaged by this agreement. Your thoughts on this would be appreciated. Best, Carl
Oct 11, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	Email from, to CV re: Agreed Carl. Let's reword or remove Paragraph 8.7: Work Product. Thanks!
Oct 12, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	Email to, from CV re: Hi Rasel, Attached is the marked up version of the access agreement with our corrections and comments added. Please review and finalize with your legal counsel. I appreciate your efforts in moving this forward. Best, Carl
Oct 17, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	Email from, to CV re: Thanks Carl, the draft is under DOJ's review. I'll get back to you as soon as we receive feedback/comments. Do you want to add anything to the appendix i.e. project description, site information, site's photos etc.? Thanks Rasel
Oct 17, 2022	Rasel Hossain, Director	Access Agreement	Email to, from CV re: HI Rasel, Thanks Rasel.

	Contaminants and Remediation		<p>This is a time-sensitive endeavour as we are trying to complete our Land Use Permit and Water Licence applications and need the access agreement as soon as possible in order to avoid delays in processing the LUP and WL. If you are able to nudge DOJ into expediting their review that would be much appreciated. I have sent a project description previously, but am attaching again. It can be included in the appendix. Below is an image of the area of the proposed campsite outlined in red, taken from Google Earth. The location is approximately: 62o 33' 14" N and 113o 30' 57" W.</p> <p>Best, Carl</p>
Oct 28, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	<p>Email to, from CV re: Hi Rasel, Have you heard anything from the DOJ regarding the access agreement? Carl</p>
Oct 28, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	<p>Hi Carl: I need the following info from EREX: Such notices shall be sent to the following addresses:</p> <p>For the Licensor:</p> <p>Crown-Indigenous Relations and Northern Affairs Canada Contaminants and Remediation Directorate 4923-52nd Street, Gallery Building Yellowknife, Northwest Territories X1A 2R3</p> <p>Attn: Rasel Hossain Phone: 867-444-0124 Fax: 867-669-2439 Email: rasel.hossain@rcaanc-cirnac.gc.ca</p>

			<p>For the Licensee:</p> <p>[EREX International Ltd.] [coordinates] Attn: [title]</p> <p>Thanks for your patience! It should be finalized for signature by early next week.</p>
Oct 28, 2022	Rasel Hossain, Director Contaminants and Remediation		Email to, from CV re: Thanks for your help with this.
Nov 2, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	<p>Email from, to CV re: Good morning, Carl.</p> <p>Attached is the final agreement for signing off. Once I get your signed copy, I'll get it executed from CANADA, CIRNAC's side. Thank you for your patience.</p> <p>Very best, Rasel</p>
Nov 2, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	<p>Email to, from CV re: Hi Rasel, Thanks very much for getting this agreement to me. I will review and get a signed copy back to you asap. Best Regards, Carl</p>
Nov 3, 2022	Rasel Hossain, Director Contaminants and Remediation	Access Agreement	<p>Email to, from CV re: Good Day Rasel, Attached is a signed copy of the access agreement. I look forward to the fully executed document. Thanks so much for your help with this. Best Regards, Carl</p>
	City of Yellowknife		

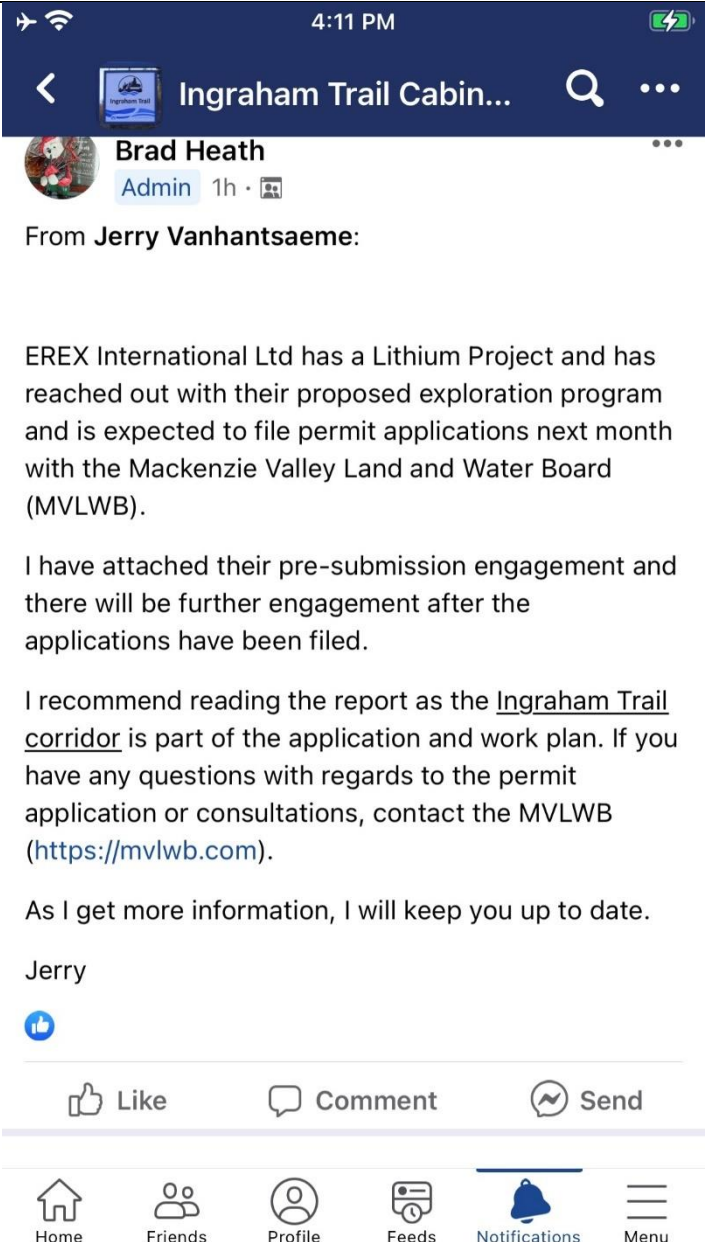

Oct 26, 2022	Email DL to Sheila Bassi-Kellett	Introduction and request to engage	<p><i>Good morning Sheila:</i></p> <p><i>I am working with EREX International Limited on stakeholder relations and licensing and permitting of their Yellowknife Lithium Project.</i></p> <p><i>As part of the pre-submission engagement for their proposed exploration project, the Company plans to apply to the MVLWB for a land use permit and a water license for the proposed activities in the near future.</i></p> <p><i>Please do not hesitate to contact me if you have any questions, comments, advice or concerns at this time. If there are others that should have been included in this email, please let me know. I look forward to working with you.</i></p>
Nov 1, 2022	Email to, from DL	Introduction and request to engage	<p><i>Follow up to Oct 26, 2022 email Hello. Sheila:</i></p> <p><i>I am following up with you on communication I sent on October 26, 2022 regarding the above exploration project.</i></p> <p><i>As the company is planning on filing their applications with the MVLWB soon, they would welcome an opportunity to engage with the City of Yellowknife to learn of any concerns and advice.</i></p> <p><i>Very kind regards</i> <i>Denise A Lockett, for</i> <i>EREX International Ltd</i></p>
Nov 1, 2022	Email from, to DL	Introduction and request to engage	<p><i>Hello Denise and thanks so much for reaching out – twice!</i></p> <p><i>You've been on my to do list to respond to.</i></p> <p><i>I received your original email on October 26 and circulated within key members of City Administration. Based on the information provided, the City does not have any land use planning or development concerns. We do appreciate this initial contact and look forward to ongoing contact/project updates if approved and if the exploration is successful and you move the project forward to production.</i></p> <p><i>Best regards</i> <i>SBK</i></p>
Nov 1, 2022	Email to, from DL	Introduction and request to engage	<p><i>Great to hear from you Sheila and hope to connect soon.</i></p>

Oct 26, 2022	<p>Pontoon Lake /Ingraham Trail Cabin Owners Kate Hearn</p>	Introduction and request to engage	<p><i>Good morning, Kate:</i></p> <p><i>I am working with EREX International Ltd on their Yellowknife Lithium Project and the company has been advised by the MVLWB to reach out to the Pontoon Lake cabin owners for their advice and input.</i></p> <p><i>I have attached a Project Description which includes maps of what the company is proposing for early next year. I don't have email addresses for other cabin owners and wondered if you would be able to help me with them.</i></p> <p><i>Engaging with the cabin owners is a priority and I look forward to hearing from you.</i></p>
Oct 26, 2022	Email from K. Hearn, copied to Pontoon Lake Residents	Follow up	<p><i>Hello Denise -</i></p> <p><i>Thanks for passing this information along. I have email addresses for most of the people with cabins around the bay at the north end of Pontoon, as well as the people in the cabin right on highway 4. I will forward the information along to them advising them to contact you or review the materials on the MVLWB registry if they have concerns.</i></p> <p><i>You should be aware that there is a privately owned lot on the south-west end of Pontoon, a large lease held by the Boy Scouts, as well as a +/- 50 ha commercial lease between the Pontoon north end cabin subdivision and the highway, and a +/- 15 ha lease just north of the highway from us. I don't have addresses for them and I am missing addresses for a few of the other leases found at Pontoon.</i></p> <p><i>I note that the proposed activities aren't really near Pontoon but include Bighill Lake. Big hill is quite a popular hiking and fishing destination for many people along the Ingraham Trail as well those from Yellowknife- so much so that the GNWT built a parking area and turnout at the trailhead of a hiking trail going from the highway to Bighill (opposite end from your client's mineral lease). I would suggest you try and reach out to users of the Bighill area somehow. You could try to get in touch with Brad Heath. He is the administrator of the Ingraham Trail Cabin Owners Facebook page which has fairly active readership. It's a private group for Ingraham Trail property owners, but he may be willing to let you post some information about the proposed activities.</i></p> <p><i>Good luck!</i></p> <p><i>Kate</i></p>

<p>Oct 26, 2022</p>	<p>Copy of email from K. Hearn</p>	<p>Follow up</p>	<p><i>Good afternoon, everyone -</i></p> <p><i>Denise Lockett contacted me and asked me to forward the attached information to people at Pontoon. EREX has applied to the MVLWB for a land use permit for proposed mineral exploration activities at various locations along the Ingraham Trail, including Bighill Lake. While they don't have direct activities at Pontoon, they are proposing a winter road across Pontoon from the territorial park to the access trails to Bighill (where they have a mineral lease). They are requesting input from us on their project.</i></p> <p><i>Please contact Denise directly if you have concerns and/or feel free to provide comments through the MVLWB.</i></p> <p><i>Also, please let me know if you <u>do not want</u> your email address passed along to Denise - otherwise I will give her the list of people I reached out to, in case the company wishes to communicate any further with us.</i></p> <p><i>Thanks, Kate</i></p>
<p>Oct 27, 2022</p>	<p>Email from L. Sarkadi</p>	<p>Follow up</p>	<p><i>Not gonna lie, this makes my heart sink.</i></p>
<p>Oct 28, 2022</p>	<p>DL via Facebook Messenger to Brad Heath</p>	<p>Introduction and request for engagement assistance and advice</p>	<p>Hi Brad: I am working with EREX International Ltd. on the Yellowknife Lithium Project. Are you able to share your email address with me (I understand you moderate a Prelude group) so we can reach out for engagement?</p>
<p>Oct 28, 2022</p>	<p>Brad Heath response to DL Facebook Messenger communication</p>	<p>Introduction and request for engagement assistance and advice</p>	<p>Hi Denise, I administer a closed Facebook group for Ingraham Trail cabin owners. If you want, I can post information on our FB page for you. My email address is bcheath1@mac.com. If you want to specifically reach Prelude residents, Jerry Vanhantsaem might be able to help you out. He puts out an Ingraham Trail e-newsletter but also liaises between Trail and government and I think he might be able to send info directly to Prelude owners (which includes Leslie & me). His email address is ingrahamtrail.ownersgroup@gmail.com.</p>
<p>Oct 28, 2022</p>	<p>DL response to Brad Heath Facebook</p>	<p>Introduction and request</p>	<p>Thanks for the great advice.</p>

	Messenger communication	for engagement assistance and advice	
Oct 28, 2022	Email from DL to Jerry Vanhantsaem	Introduction and request for engagement assistance and advice	<p><i>Hi Jerry:</i></p> <p><i>I am working with EREX International Ltd. on the Yellowknife Lithium Project and Brad Heath suggested that I reach out to you to help engage interested persons.</i></p> <p><i>See attached the Project Description for the proposed exploration program. We expect to file permit applications next month with the MVLWB and would appreciate an opportunity to engage with your group. I look forward to hearing from you.</i></p> <p><i>Kind regards</i></p> <p><i>Denise A Lockett, for EREX International Ltd.</i></p>
Oct 28, 2022	Jerry Vanhantsaem	Introduction and request for engagement assistance and advice	Email from, to DL re: I can look it over this wknd and get back to you. Are you located in Yellowknife?
Oct 28, 2022	Jerry Vanhantsaem	Introduction and request for engagement assistance and advice	Email to, from DL re: No, I'm not. I did for 20 years but maybe bed south in 05 and of course my heart is still in the north.
Nov 3, 2022	Jerry Vanhantsaem	Introduction and request for engagement	Phone call from, to DL re: have been too busy to look at materials, but will look at them over the weekend. Will contact DL over the weekend if any questions.

		assistance and advice	
Nov 5, 2022	Jerry Vanhantsaem	Response to Introduction and request to engage	Email from, to DL: just finished reading the project description. I will put it out to the Trail tomorrow. Is there a public consultation?
Nov 5, 2022	Jerry Vanhantsaem	Response to Introduction and request to engage	Email to, from DL: This is the pre-submission engagement, and there will be further engagement after the applications have been filed.
Nov 5, 2022	Jerry Vanhantsaem	Response to Introduction and request to engage	Email from, to DL: Ok thx

<p>Nov 6, 2022</p>	<p>Ingraham Trail Cabin Users via Jerry Vanhantsaeme</p>	<p>Information and request to engage</p>	 <p>The screenshot shows a mobile view of a Facebook post. At the top, the status bar shows 4:11 PM and battery level. The post header includes the page name 'Ingraham Trail Cabin...', a search icon, and a menu icon. The post is from 'Brad Heath', an 'Admin' of the page, posted '1h' ago. The text of the post reads: 'From Jerry Vanhantsaeme: EREX International Ltd has a Lithium Project and has reached out with their proposed exploration program and is expected to file permit applications next month with the Mackenzie Valley Land and Water Board (MVLWB). I have attached their pre-submission engagement and there will be further engagement after the applications have been filed. I recommend reading the report as the <u>Ingraham Trail corridor</u> is part of the application and work plan. If you have any questions with regards to the permit application or consultations, contact the MVLWB (https://mvlwb.com). As I get more information, I will keep you up to date. Jerry'.
