Good morning Kathy and Travis (et al.),

Please consider Travis' email as a request for ruling to the Board to accept a late intervention request.

For context, Kimberley and I spoke in September about the intervention request - LFN staff and members were out on their Fall hunt and did not make the original intervention deadline. It was thought a letter received on or before the 11th of October would suffice for requesting intervenor status and that no additional process steps would be required. I advised LFN accordingly.

With respect to the receipt of LFN's intervention request and letter, it was sent by LFN on the 11th of October, albeit at 23:11 PST. It was then uploaded on the 12th by MVLWB staff to the registry. This is reflected on the Public Registry.

Apologies for any inconveniences and please let me know if any additional information is required for the request for ruling.

Sincerely,

Ruari Carthew

Hello Kimberley,

LFN would like the Board to consider the late Intervention. My understanding is that LFN's submission was submitted on October 11th at 2:11pm pst.

Sorry for any confusion.
