Hi Aileen

The Town of Hay River would be willing to support access to and use of the following identified properties by the GNWT for temporary storage of excavated material with the terms and conditions of agreement to be finalized. The following sites are offered in descending order of preference:

1. Lot 2089 Plan 4372 (Hay River Landfill): 5500m2 on multiple plots
2. Lot 281 Plan 311: ~55mx35 plot
3. Lot 190 Plan 275: ~55mx55m plot on NW portion of the lot. Note a new secured access road and clearing of laydown area would be required and would be the responsibility of the GNWT.

Fees and charges to be agreed upon in accordance with THR bylaws. The THR does express interest in use of the material for municipal applications.

Please let me know if you require anything further at this time.

**Glenn Smith, MBA**
