Regarding: Land Use Permit Application on Behalf of City of Yellowknife

To Whom It May concern:

We would like to submit this land use permit application on behalf of the City of Yellowknife. The City of Yellowknife is exploring the development of city owned lands along Taylor Road and is conducting a Phase II Environmental Site Assessment to determine if the lands have been subject to any environmental impacts. As part of the Phase II investigation, we would like to install three groundwater monitoring wells to determine if there are any impacts to the groundwater on site. The drilling will require the use of a drilling rig. We will also be advancing testpits and may use a small excavator if ground conditions are difficult to dig through. We have included the excavator on this application.

The application includes three attachments, one containing the City of Yellowknife Certificate of Incorporation, one containing a 1:50,000 scale map of the site and surrounding area and a third with a spill contingency plan.

Please let me know if you require any additional information.

Thank you,

A handwritten signature in black ink, appearing to read "Jackie Harman", is written over a light blue circular stamp. The signature is fluid and cursive.

Jackie Harman, P.Eng., M.Sc.  
Senior Hydrogeologist
