

27 October 2023

Project Number: 230503

Mackenzie Valley Land and Water Board
P.O. Box 2130
4922 - 48th Street
7th Floor YK Centre Mall
Yellowknife, NT. X1A 2P6

To Whom It May concern:

We would like to submit this land use permit application on behalf of the City of Yellowknife. The City of Yellowknife is exploring the development of city owned lands along Taylor Road and is conducting a Phase II Environmental Site Assessment to determine if the lands have been subject to any environmental impacts. As part of the Phase II investigation, we would like to install three groundwater monitoring wells to determine if there are any impacts to the groundwater on site. The drilling will require the use of a drilling rig. We will also be advancing testpits and may use a small excavator if ground conditions are difficult to dig through. We have included the excavator on this application. This plan has been updated since the original submission on October 5 to include the public engagement plan and more details regarding the waste management plan. Neighbours and stakeholders were asked to respond to the engagement letter by November 3, 2023. If additional comments are received they will be added to the engagement plan and the plan updated.

The application includes three attachments, one containing the City of Yellowknife Certificate of Incorporation, one containing a 1:50,000 scale map of the site and surrounding area and a third with a spill contingency plan.

Please let me know if you require any additional information.

Thank you,
