Who owns Trinex? Chinese? 2. Are there any activities and/or cabins in the area? 3. For bear monitoring, camp, attendants, drilling assistants, are you going to deal with all three communities. 4. DKFN builds core boxes, so that is something we can provide. 5. In your drilling program, do you plug the holes? 6. What lakes are involved? 7. So you'll just walk and fly over with heli. 8. When will you drill? 9. Do you have a camp? 10. Fuel stash? 11. How many ppl will be on the ground at any time? 		<p>No, Chinese does not own Trinex. Investors will fund only if its collaborative. We will have to figure out an approach to ensure participating from all three Akaitcho communities, including others.</p> <p>There are some cabins in the area. We are inquiring to potentially rent one of those cabins for use if possible.</p> <p>We will plug the holes after drilling. We must send photos to MVLWB of each hole that we plug.</p> <p>We are dealing with Ross Lake, Thistle Lake, and Lake Alma, etc.</p> <p>We are using helicopters to land in area and walk the grounds over course of program and collect rock samples to see how much lithium is present.</p> <p>We hope to drill at Ross Lake this year if application is ready.</p> <p>If we drill at Ross Lake, we'll have to put in a camp but that won't be done till next year.</p> <p>If we drill at Ross Lake, we will need to bring in fuel.</p> <p>At Ross Lake there will be 4 ppl working the site and the same goes for the MAC Claim area.</p> <p>A letter dated December 5, 2024 was emailed on December 6, 2024, highlighting that Trinex Minerals will be submitting a LUP solely for the Halo-Yuri Project and that once approved, engagement would commence in 2025.</p>
