

Yukon Government - Engagement Record for Mackenzie Valley Land and Water Board

Date	Attendee	Contact Information	Engagement Activity Type	Response?	Issues Raised from Affected Party	Recommendation from Affected Party	YG response to issue	Information provided to party	Other Contact information
20-Aug-24	Acho Dene Koe First Nation	administration@adkfirstnation.ca chief@adkfirstnation.ca	Letter via email from T. Fraser to the First Nation (called First Nation first for best email contact)	Yes				Letter and maps	
28-Aug-24	Acho Dene Koe First Nation	stephen.mills@northwestel.net	Telephone conversation T. Fraser with Stephen Mills	Yes	Stephen is aware that the wellsite is requiring reclamation. Stephen had questions about the permitting on the Yukon side as well as whether the project would trigger a Benefits Agreement per the Yukon Oil and Gas Act for work in the Yukon for the Acho Dene Koe as they have rights in that area. Acho Dene Koe has a strong historical connection to the area.	Further discussion on the Benefits Agreement for the work in Yukon.	T. Fraser to look into this with Government of Yukon officials.		
10-Sep-24	Acho Dene Koe First Nation	stephen.mills@northwestel.net	Follow-up Email T. Fraser to Stephen Mills	Yes					
18-Sep-24	Acho Dene Koe First Nation	stephen.mills@northwestel.net	Email from Stephen Mills to T. Fraser	Yes	Stephen reiterated he would like to discuss a Benefits Agreement per the Yukon Oil and Gas Act.		T. Fraser email response on 2024-09-20 that we will be looking into this with Yukon Government officials and will be getting back to him.

20-Aug-24	Sambaa K'Dene Band	lands@sambaakefn.com; manager@sambaakefn.com	Letter via email T. Fraser to First Nation (called First Nation first for best email contact)	Yes				Letter and maps	
29-Aug-24	Sambaa K'Dene Band	lands@sambaakefn.com	Email from Michael McPhee to T. Fraser, Lands Coordinator	Yes	Michael McPhee commented: "I have reviewed the letter and project plans and have determined that this project will have little impact on Sambaa K'e traditional territory however a strong commitment to protecting the lands and waters across the NWT remains. We would like more information on the plans for construction of this barge landing, where is material being taken from, what practices will be used when constructing the landing to avoid environmental impact, and how will efforts be made to employ locals from Fort Liard or neighboring communities. When will this work be taking place and will it avoid important spawning times for fish and calving seasons for game animals. How many trips are expected to be made on this route throughout the projects time span"		Tiffani Fraser (YG) requested a phone conversation about the project when convenient for Mr. McPhee		
29-Aug-24	Sambaa K'Dene Band	289-981-2656	Phone call Tiffani Fraser with Michael McPhee; Lands Coordinator	Yes	Discussed the content of the email sent earlier that day and answered questions that had been posed; the FN has no other concerns and the project has minimal impact on the Sambaa K'e; in practise they like to advocate for communities near the project generally regarding requests to use local labour; they understand the wells need to be closed and contained and they are in support of this; they would have concerns if there would be issues with water quality, for example would there be any foreign materials introduced into the water	Keep Sambaa K'Dene apprised of further development on this application process via email to Michael McPhee.			
26-Aug-24	Village of Fort Simpson	dwhite@fortsimpson.com	Letter via email T. Fraser to Village (called Village office first for best email contact)	No				Letter and maps	Darrell White, Senior Administration Officer
