

Conditions Annexed to and Forming Part of Land Use Permit # MV2024S0021

Part A: Scope of Permit

1. This Permit entitles the Permittee to conduct the following land-use operation:
 - a) Use of drills for geotechnical investigation; and
 - b) Use of vehicles, machines, and equipment for geotechnical investigation.
2. This Permit is issued subject to the conditions contained herein with respect to the use of land for the activities and area identified in Part A, item 1 of this Permit.
3. Compliance with the terms and conditions of this Permit does not excuse the Permittee from its obligation to comply with the requirements of any applicable Federal, Territorial, Deline, Tłıchǫ, or Municipal laws.

Part B: Definitions (defined terms are capitalized throughout the Permit)

Act - the *Mackenzie Valley Resource Management Act*.

Archaeological Impact Assessment - archaeological research as defined by the Prince of Wales Northern Heritage Centre *Guidelines for Developers for the Protection of Archaeological Sites in the Northwest Territories*.

Archaeological Overview - a study of archaeological sites as defined by the Prince of Wales Northern Heritage Centre *Guidelines for Developers for the Protection of Archaeological Sites in the Northwest Territories*.

Board – the Mackenzie Valley Land and Water Board established under Part 4 of the Act.

Borehole - a hole that is made in the surface of the ground by drilling or boring.

Closure and Reclamation - the process and activities that facilitate the return of areas affected by the Project to viable and, wherever practicable, self-sustaining ecosystems that are compatible with a healthy environment, human activities, and the surrounding environment.

Drilling Fluid - any liquid mixture of water, sediment, drilling muds, chemical additives or other wastes that are pumped down hole while drilling and are specifically related to drilling activity.

Drilling Waste - all materials or chemicals, solid or liquid, associated with drilling, including drill cuttings and Drilling Fluids.

Engagement Plan - a document, developed in accordance with the Board's *Engagement and Consultation Policy* and the *Engagement Guidelines for Applicants and Holders of Water Licences and Land Use Permits*, that clearly describes how, when, and which engagement activities will occur with an affected party during the life of the project.

Habitat - the area or type of site where a species or an individual of a species of wildlife naturally occurs or on which it depends, directly or indirectly, to carry out its life processes.

Inspector - an Inspector designated by the Minister under the Act.

Minister - the Minister of Indian Affairs and Northern Development Canada or the Minister of the Government of the Northwest Territories – Department of Lands, as the case may be.

Ordinary High-Water Mark - the usual or average level to which a body of water rises at its highest point and remains for sufficient time so as to change the characteristics of the land. In flowing waters (rivers, streams) this refers to the “active channel/bank-full level” which is often the 1:2 year flood flow return level. In inland lakes, wetlands, or marine environments, it refers to those parts of the Watercourse bed and banks that are frequently flooded by water so as to leave a mark on the land and where the natural vegetation changes from predominately aquatic vegetation to terrestrial vegetation (excepting water tolerant species). For reservoirs, this refers to normal high operating levels (full supply level).

Permittee - the holder of this permit.

Progressive Reclamation - Closure and Reclamation activities conducted during the operating phase of the project.

Secondary Containment - containment that prevents liquids that leak from Fuel Storage Tanks or containers from reaching outside the containment area and includes double-walled Tanks, piping, liners, and impermeable barriers.

Spill Contingency Plan - a document, developed in accordance with Aboriginal Affairs and Northern Development Canada’s *Guidelines for Spill Contingency Planning* that describes the set of procedures to be implemented to minimize the effects of a spill.

Toxic Material - any substance that enters or may enter the environment in a quantity or concentration or under conditions such that it:

- a) Has or may have an immediate or long-term harmful effect on the environment or its biological diversity;
- b) Constitutes or may constitute a danger to the environment on which life depends; or
- c) Constitutes or may constitute a danger in Canada to human life or health.

Waste - any garbage, debris, chemical, or Toxic Material to be used, stored, disposed of, or handled on land, and also as defined in section 51 of the Act.

Waste Management Plan - a document, developed in accordance with the Board’s Guidelines for Developing a Waste Management Plan, that describes the methods of Waste management from Waste generation to final disposal.

Watercourse - a natural body of flowing or standing water or an area occupied by water during part of the year, and includes streams, springs, swamps and gulches but does not include groundwater.

Part C: Conditions Applying to All Activities (headings correspond to subsection 26(1) of the Mackenzie Valley Land Use Regulations)

Condition	Category
26(1)(a) Location and Area	
1. The Permittee shall only conduct this land-use operation on lands designated in the application.	LOCATION OF ACTIVITIES
2. Prior to the commencement of the Permittee shall submit the target areas and drill hole locations on a 1:50,000-scale map with coordinates and map datum to the Board and an Inspector.	DRILL LOCATIONS
26(1)(b) Time	
3. At least 48 hours prior to the initial commencement of the land-use operation, the Permittee's Field Supervisor shall notify the Board and contact an Inspector at 867-767-9188.	INITIAL NOTIFICATION – CONTACT INSPECTOR
4. At least 48 hours prior to commencement of the land-use operation, the Permittee shall provide the following information, in writing, to the Board and an Inspector: <ul style="list-style-type: none"> a) the name(s) of the person(s) in charge of the field operation; b) alternates; and c) all methods for contacting the above person(s). 	IDENTIFY AGENT
5. At least ten days prior to the completion of the land-use operation, the Permittee shall advise an Inspector of: <ul style="list-style-type: none"> a) the plan for removal or storage of equipment and materials; b) when final cleanup and reclamation of the land used will be completed; and c) when the Final Plan will be submitted. 	REPORTS BEFORE FINAL REMOVAL
26(1)(c) Type and Size of Equipment	
6. The Permittee shall only use equipment of a similar type, size, and number to that listed in the complete application.	USE APPROVED EQUIPMENT
26(1)(d) Methods and Techniques <i>Intentionally left blank.</i>	
26(1)(e) Type, Location, Capacity, and Operation of All Facilities	

7. The Permittee shall ensure that the land use area is kept clean at all times. **CLEAN WORK AREA**

26(1)(f) Control or Prevention of Ponding of Water, Flooding, Erosion, Slides, and Subsidence of Land

8. The Permittee shall, where flowing water from a Borehole is encountered: **FLOWING ARTESIAN WELL**
- a) plug the Borehole in such a manner as to permanently prevent any further outflow of water; and
 - b) immediately report the occurrence to the Board and an Inspector.

26(1)(g) Use, Storage, Handling, and Ultimate Disposal of Any Chemical or Toxic Material

9. At least seven days prior to the use of any chemicals that were not identified in the complete application, the Safety Data Sheets must be provided to the Board and an Inspector. **CHEMICALS**

10. The Permittee may deposit Drilling Waste that does not contain Toxic Material in a Sump. Any Sumps or natural depressions used to deposit Drilling Waste must be located at least 100 metres from the Ordinary High Water Mark of any Watercourse, unless otherwise authorized in writing by an Inspector. **DRILLING WASTE**

11. The Permittee shall remove all Drilling Waste containing Toxic Material to an approved disposal facility. **DRILLING WASTE DISPOSAL**

12. The Permittee shall not allow any Drilling Waste to spread to the surrounding lands or Watercourses. **DRILLING WASTE CONTAINMENT**

13. The Permittee shall dispose of all Toxic Material as described in the approved Waste Management Plan. **WASTE CHEMICAL DISPOSAL**

14. The Permittee shall dispose of all combustible Waste petroleum products by removal to an approved disposal facility. **WASTE PETROLEUM DISPOSAL**

15. The Permittee shall dispose of all waste and debris as described in the accepted Application. **WASTE MANAGEMENT PLAN**

26(1)(h) Wildlife and Fish Habitat

16. The Permittee shall take all reasonable measures to prevent damage to wildlife and fish Habitat during this land-use operation. **HABITAT DAMAGE**

26(1)(i) Storage, Handling, and Disposal of Refuse or Sewage

- | | |
|---|--------------------------|
| 17. The Permittee shall keep all garbage and debris in a secure container until disposal. | GARBAGE CONTAINER |
| 18. The Permittee shall dispose of all garbage, waste, and debris as described in the accepted application, unless otherwise authorized in writing by an Inspector. | REMOVE GARBAGE |

26(1)(j) Protection of Historical, Archaeological, and Burial Sites

- | | |
|--|--|
| 19. The Permittee shall not operate any vehicle or equipment within 150 metres of a known or suspected historical or archaeological site or burial ground. | ARCHAEOLOGICAL
BUFFER |
| 20. The Permittee shall not knowingly remove, disturb, or displace any archaeological specimen or site. | SITE DISTURBANCE |
| 21. The Permittee shall, where a suspected archaeological or historical site, or burial ground is discovered:
a) immediately suspend operations on the site; and
b) notify the Board at (867) 669-0506 or an Inspector at (867) 767-9188, and the Prince of Wales Northern Heritage Centre at 767-9347 ext. 71251 or ext. 71255. | SITE DISCOVERY AND
NOTIFICATION |

26(1)(k) Objects and Places of Recreational, Scenic, and Ecological Value

Intentionally left blank

26(1)(l) Security Deposit

- | | |
|--|--|
| 22. All costs to remediate the area under this Permit are the responsibility of the Permittee. | RESPONSIBILITY FOR
REMEDICATION COSTS |
| 23. Prior to the commencement of the land-use operation, the Permittee shall deposit with the Minister a security deposit in the amount of \$ _____. | SECURITY DEPOSIT |

26(1)(m) Fuel Storage

- | | |
|--|--|
| 24. The Permittee shall set up all refueling points with Secondary Containment. | SECONDARY
CONTAINMENT -
REFUELING |
| 25. The Permittee shall not allow petroleum products to spread to surrounding lands or Watercourses. | FUEL CONTAINMENT |

- | | |
|--|--------------------------------------|
| <p>26. The Permittee shall comply with the Spill Contingency Plan, once approved, and shall annually review the plan and make any necessary revisions to reflect changes in operations, technology, chemicals, or fuels, or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval.</p> | <p>SPILL CONTINGENCY PLAN</p> |
| <p>27. Prior to commencement of the land-use operation the Permittee shall ensure that spill-response equipment is in place to respond to any potential spills.</p> | <p>SPILL RESPONSE</p> |
| <p>28. All equipment that may be parked for two hours or more, shall have a haz-mat/drip tray under it or be sufficiently diapered. Leaky equipment shall be repaired immediately.</p> | <p>DRIP TRAYS</p> |
| <p>29. The Permittee shall clean up all leaks, spills, and contaminated material immediately.</p> | <p>CLEAN UP SPILLS</p> |
| <p>30. During the period of this Permit, if a spill occurs or is foreseeable, the Permittee shall:</p> <ol style="list-style-type: none"> a) implement the approved Spill Contingency Plan; b) report it-immediately using the NU-NT Spill Report Form by one of the following methods: <ul style="list-style-type: none"> • Telephone: (867) 920-8130 • E-mail: spills@gov.nt.ca • <u>Online: Spill Reporting and Tracking Database</u> c) within 24 hours, notify the Board and an Inspector; and d) within 30 days of initially reporting the incident, submit a detailed report to the Board and an Inspector, including descriptions of causes, response actions, and any changes to procedures to prevent similar occurrences in the future. Any updates to this report shall be provided to the Board and an Inspector in writing as changes occur. | <p>REPORT SPILLS</p> |

26(1)(n) Methods and Techniques for Debris and Brush Disposal

Intentionally left blank.

26(1)(o) Restoration of the Lands

- | | |
|--|---------------------------------------|
| <p>31. The Permittee shall carry out Progressive Reclamation of disturbed areas as soon as it is practical to do so.</p> | <p>PROGRESSIVE RECLAMATION</p> |
|--|---------------------------------------|

26(1)(p) Display of Permits and Permit Numbers

- | | |
|--|------------------------------|
| <p>32. The Permittee shall keep a copy of this Permit on hand at all times during this land-use operation.</p> | <p>COPY OF PERMIT</p> |
|--|------------------------------|

26(1)(q) Biological and Physical Protection of the Land

33. If any plan is not approved by the Board, the Permittee shall revise the plan according to the Board's direction and re-submit it to the Board for approval.

RESUBMIT PLAN

34. The Permittee shall comply with the **Engagement Plan**, once approved, and shall annually review the plan and make any necessary revisions to reflect changes in operations or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval.

ENGAGEMENT PLAN

35. All revised plans submitted to the Board shall include a brief summary of the changes made to the plan.

**SUMMARY OF
CHANGES**

DRAFT

Attachment A: MV2024X0021 - Concordance Table of Items Requiring Submission

Supplemental information to be submitted by Permittee as required through Land Use Permit Conditions.

Disclaimer: If there are any discrepancies between this table and the body of the Permit, the Permit conditions prevail.

Permit Condition	Report/Plan Title	Timeline for Submission
15	Waste Management Plan	Shall annually review the plan and make any necessary revisions to reflect changes in operations, technology, chemicals, or fuels, or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval.
26	Spill Contingency Plan	Shall annually review the plan and make any necessary revisions to reflect changes in operations, technology, chemicals, or fuels, or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval.
34	Engagement Plan	Shall annually review the plan and make any necessary revisions to reflect changes in operations or as directed by the Board. Revisions to the plan shall be submitted to the Board for approval.
