Fisheries and Oceans Canada (DFO) - Ms. Anna-Maija LaFlamme					
1		DFO has reviewed the Bouvier Creek Culvert Rehabilitation Project, New Type B Water Licence, file number: MV2025L8-0001 and previously issued a Letter of Advice in 2024 (23-HCAA-001920) for the works and has no comments at this time.	DFO has no recommendations at this time.	Noted.	Noted
GNWT-ECE - PWNHC (Prince of Wales Northern Heritage Centre) - Danielle Desmarais					
1	Protection of Historical, Archaeological, and Burial Sites	Although some of the area has been disturbed from past development activities, there has not been any archaeological investigations here, and very little archaeological investigations in the surrounding area. Culvert rehabilitation activities may place unrecorded archaeological sites at risk of impact.	We recommend the standard conditions of: Archaeological Buffer - The Permittee shall not operate any vehicle or equipment within 150 metres of a known or suspected historical or archaeological site or burial ground. Site Disturbance - The Permittee shall not knowingly remove, disturb, or displace any archaeological specimen or site. Site Discovery and Notification - The Permittee shall, where a	The project proponent notes that these conditions are currently required as part of the Land Use Permit MV2023E0012, which this project falls under. Further this project is proposed within previously disturbed areas and includes rehabilitation work only. Rehabilitation will occur within the limits of the original construction, however we understand the concerns of the PWNHC and have no concerns with these conditions being placed on	Conditions have not been added to the water licence as they are already covered. The Conditions referenced are those which are included in the standard conditions for land use permits and not included in the standard conditions for water licences. The conditions that are referenced are included in the Land Use Permit MV2023E0012 which the Licensee will be operating under as well.
