Subject: Great Bear Lake Project

KBL Environmental Ltd. (KBL) owns and holds a regulatory approval to operate an Industrial Waste Transfer Facility located at #17 Cameron Road in Yellowknife, Northwest Territories. The facility is permitted and regulated through the jurisdiction of the Northwest Territories Department of Environmental and Natural Resources under approval number NTR000123. Under this approval KBL is an end receiver of hazardous and non-hazardous wastes.

KBL has been contacted to provide services to manage acceptance of waste generated through remediation efforts from INAC - CARD, Great Bear Lake remediation project in the Northwest Territories. More specifically waste material that we may receive at KBL's Yellowknife Industrial Waste Transfer Facility is as follows but not limited to:

- Empty Metal/Plastic drums
- Tank or barrel sludge and solids
- Non-Hazardous Construction Debris
- Batteries
- Gas cylinders
- Hazardous and non-hazardous liquid hydrocarbon or chemical waste
- Leachable and non-leachable soils impacted with: hydrocarbons and/or metals
- PCB Amended Paint (PAP) coated construction waste
- PCB Light Ballasts/PCB Wire Sheathing
- Hazardous Soils (PCB)
- Lead Paint and/or coated solids
- Asbestos
- White Goods containing Freon

If there are any questions regarding content included herein please contact our office as required.
