

Overview

Item Description

Town of Norman Wells submitted their 2020 Annual Report on May 12, 2021. This Report is required by Water Licence S18L3-003, Part B Condition 21 and Schedule 1. Although formal approval of this Report is not required under the Licence, the Board must be satisfied that the Licensee has met the requirements of the Licence. Therefore reviewers are invited to submit comments and recommendations using the online review system (ORS) by the review comment deadline specified. If reviewers seek clarification on the submission, they are encouraged to correspond directly with the Licensee prior to submitting comments and recommendations.

| 01. | Topic | 2021-06-29 Appendix A-Spill Reports S18L3-003 | July 9, 2021 |
| | Comment | · Looking over the NWT spill line website, the spill that was reported on 01/30/2020 is not on the NWT spill line website | |
| | Recommendation | Spills should be sent in to be reported to the spill line. | |
| | Response(s) | I have reviewed my records and this spill report was emailed to spills@gov.nt.ca January 30, 2020. I have submitted another copy to the spill line for their records. | |
| 02. | Topic | Licence Part B, Condition 21, 1. Water Usage | July 9, 2021 |
| | Comment | · Under this section, it is unclear if the water use has included the dust suppression water used on roads. | |
| | Recommendation | If this is not included in the water use, I recommend adding it to the usage and the location of where the water is coming from. | |
| | Response(s) | We will keep records and report on water used for dust suppression in future. | |

Dear Ashwathy Varghese,

Re:

**Town of Norman Wells
Water Licence – S18L3-003
2020 Annual Water Licence Report
Request for Review and Comments**

The Department of Environment and Natural Resources (ENR), Government of the Northwest Territories has reviewed the report at reference based on its mandated responsibilities and provides the following comments and recommendations for the consideration of the Board.

Topic: Water Licence Part B, Condition 21, 1. Water Usage

Comment(s):

It isn't clear in this section if reported water usage has included the dust suppression water used on roads.

Recommendation(s):

- 1) If water used for dust suppression was not reported under water use in the Report, ENR recommends recording dust suppression water usage and the water withdrawal locations.

Comments and recommendations were provided by ENR technical experts in the Sahtu Region and were coordinated and collated by the Environmental Assessment and Monitoring Section (EAM), Environmental Stewardship and Climate Change Division.

Should you have any questions or concerns, please do not hesitate to contact Patrick Clancy, Environmental Regulatory Analyst at (867) 767-9233 Ext: 53096 or email patrick.clancy@gov.nt.ca.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Clancy', written in a cursive style.
