**Re: Imperial Oil Resources N.W.T. Limited – 2024 Annual Water Use Report – Quarrying Sand Downstream of Islands 4, 5, and 6 – Norman Wells, NT**

Dear Tuli't'a Distribution List Members,

Sahtu Land and Water Board (SLWB) received the 2024 Annual Water Use Report for Quarrying Sand Downstream of Islands 4, 5, and 6 from Imperial Oil Resources N.W.T. Limited. (Applicant) on November 17, 2024 and reviewed it for conformity with the requirements of the Licence and the need to send out the report for a public review on the Online Review System (ORS). Board staff have determined that posting the documents on the ORS for public review was not necessary for the following reasons:

- a) In 2024, no sand was quarried from the Island 4, 5, or 6 sandbars.

The full 2024 Annual Water Use Report can be viewed on our [registry](#).

Please contact Natalie Lippa via [email](#) or at (780) 237-3571 with any questions or concerns regarding this letter.

Yours sincerely,

A handwritten signature in blue ink that reads "Natalie Lippa".
