**EXTERNAL EMAIL:** Always be cautious. **COURRIEL EXTERNE :** Il faut toujours être prudent.

Morning Dara and team,

We have reviewed your recent April 28, 2025 submission. The planned work is relevant and satisfies the current permit and licence conditions. As well, the submission outlines the justification for the preliminary screening exemption. An amendment is not required.

We will post this submission to our Registry.

If you would still like to meet later this week, anytime in the afternoon Thursday (May 1) or Friday (May 2) will work.

Thank you,

Natalie Lippa

Thank you Dara for this.

We will review and get back to you by EOD tomorrow with any comments and to set-up a meeting.

Thank you,

Natalie Lippa

Hi Natalie,

Thank you for the opportunity to meet on Wednesday and align on a path forward for down hole well abandonment with planned execution starting May 15<sup>th</sup>. Suncor has provided a letter outlining that the planned work satisfies our current permit conditions and that any condition that is being met with a different control demonstrates that neither an amendment nor a preliminary screening is required to complete this phase of the downhole work.

The Interim Rec and closure plan satisfies the current phase of the well abandonment operation and the conditions for providing a revised Rec and Closure plan will be met following supplemental site assessment in 2025. Closure and reclamation work is not planned for the lease at this time. The plan revisions require additional assessment to be completed in 2025. The Project is secured at a level higher than the proposed stage of work and at this time Suncor is not seeking a recalculation.

Please let us know if you have any questions, if possible, Suncor would like to request another meeting mid to late this week once you've had a chance to review.

Thanks  
Dara
