Thanks John for the explanation. Your request is approved.

Cheers

Hello Ryan,

I am writing to request a 30 day extension to complete the 2023 Annual Water License Report for the Colomac Gold Project for License W2021L2-0004. We have prepared a report ready for submittal however, it was based on the Type B water license requirements under license W20182-0003 which in 2023 we completed a transition between the Type B and Type A licenses. Although we completed our 2023 operations under the new Type A water license there was confusion on our side when the Type A actually came into effect and when our Type B was terminated.

We are currently working on updating the report to address all additional information required under the new conditions and will submit as soon as completed however would like to request an extension until April 30 to complete.

I am available to elaborate on any details as needed.

Regards,

John McBride MSc. PGeo
