RE: Acceptance of Waste Materials from Lac de Gras Mineral Exploration Projects

The City of Yellowknife approves the request to utilize the City's waste facilities for the Arctic Start Exploration Corp. activities occurring at Lac le Gras. Details regarding the waste types and receiving location are listed below.

Solid Waste Facility

- Food Waste and Wrappings – approximately 2,000 kg/year
- Domestic household waste – approximately 1,000 kg/year
- Materials Waste (construction waste) – approximately 3,000 kg/year

This waste will be subject to the Commercial Waste from Outside of City Limits tipping fee as outlined in the [Fees and Charges By-Law 4436](#) (e.g. For 2024, the Commercial Waste from Outside of City Limits tipping fee is \$191.50 per tonne).

The City reserves the right to refuse waste from the project in question, at its sole discretion, at any time.

This agreement is valid until December 31, 2030.

Please feel free to contact the Solid Waste Facility if you have any further questions or concerns.

Sincerely,

Chris Vaughn, P.Eng.

Manager, Sustainability and Solid Waste
